EQUIPMENT APPROVAL SERVICES  
P.O. Box 358315  
Pittsburgh, PA 15251-5315

**Reference: Request for FCC Equipment Authorization Certification**

Alcatel Canada Incorporation is in the process of completing a new product for the Local Multipoint Distribution System (LMDS) band and has requested for a FCC Equipment Authorization Certification. The Form 731 has been completed and submitted to the FCC.

These services, assigned to the 31,000 to 31,075 MHz and 31,225 to 31,300 MHz bands (US band B) are covered under Part 101: Fixed Microwave Services of the Federal Communications Commission Rules and Regulations.

The product is called Alcatel 7390 Broadband Wireless System, which provides all the advantages of ATM (Asynchronous Transfer Mode). These advantages include the convergence of voice, data and video, scalability; and maintenance & control of quality of services to the customer site using cost effective microwave transmission.
