SUBJECT: Certification FCC ID: FLC200020

Engineer in Charge:

This letter is in application for equipment Certification by the Federal Communications Commission of a Model 7559, 120 mill watt flat pack transmitter for use by Law Enforcement Agencies under part 90.217 of the Rules and Regulations which is intended to be manufactured in quantity. Modulation requirements are as required under Part 90.217(b) of the rules.

This equipment is certified to meet spectrum efficiency standards of one voice channel per 12.5 kHz of channel bandwidth. The enclosed equipment report addresses items required under part 2 of the FCC rules and Regulations.

Please feel free to phone collect for any future information required to render a decision.

The Undersigned certifies that all the information submitted is correct and true to the best of his/her knowledge.

Sincerely Yours

William Swintek
