RE: Jing Mold Electronics Technology

FCC ID: FPWJME8210

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Please confirm that no Confidentiality is requested for any Exhibits in this filing.
- 2.) Please provide clearer Internal Photos for this device. Note that FCC requirements are that the photographs must be clear enough to read the individual discrete components on both sides of any printed wiring board.

A handwritten signature in black ink, appearing to read "William H. Graff". The signature is fluid and cursive, with a distinct "W" at the beginning.

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
