Dear Gloria,

The review of this application is complete. There is one question that needs to be answered.

Q1: The test photos show the device evaluated only in a host with vertical USB slot. The test report states this is worst case. Please briefly describe the process used to evaluate radiated emissions for the case of a host computer with a horizontal USB slot.

Best regards,

Tim Dwyer  
CCS Technical Reviewer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
