BALOGH T.A.G. Corporation

RFID Transceiver

TCF-100

TCF-100

OPERATIONAL DESCRIPTION

The TCF-100 Transceiver when used with a BALOGH Control Board that supplies power to the transceiver and operational commands allows Reading and/or Writing of data to BALOGH RFID Tags via an inductive electro-magnetic field that powers the RFID Tag and communicates using pulse width modulation and a proprietary BALOGH protocol.
