## Description of Permissive Change

The application is prepared for FCC class II permissive change. The differences compared with original application (FCC ID: G95RG525FNA, Grant Date: 08/30/2023) are:

1. adding a mobile host MGA5331VBV5

| Item         | Brand   | Model       | Note  |
|--------------|---------|-------------|---|
| WIFI Gateway | Vantiva | MGA5331     | Model difference only for marketing strategy. |
|              |         | MGA5331VBV5 |   |

\*The RF characteristics of the above two host models are the same as the newly added frequency band of this module.

2. re-enabling LTE Band 14, 17, 30, 42, 43 and LTE band 42, 43 (HUPE PC2) by software, LTE CA mode is still disabled, and
3. re-enabling 5GNR n7, n14, n26, n30, n48 by software.
4. Power settings remain the same for PCB class bands. CBE class conducted power adjusted for EIRP to remain within original grant values.

The EUT has been approved and is electronically and mechanically identical to the original instructions and requirements. Except for the changes mentioned above, no other modification is performed.
