COMMENTS:

Thanks for your information.

The bandwidth plots showing compliance at the band edges have been uploaded via electronic filing.

Also, please note that the carrier originally reported at 902.000 MHZ was in error. The correct frequency is 902.1 MHZ as shown in the band edge plot. There are no signals outside the 902.000 to 928.000 band.

We trust you will find this satisfactory.

Yours very truly,

A handwritten signature in cursive script that reads "Bob".

Robert G. Marshall, P. Eng.
