Dear Helen,

Reply of your questions.

#1 Please find attached attestation statement.

#2 The requirements of 15.21 are stated on top middle of page 2 of user manual with item titled "SERVICE".

#3 Please refer to revised test report. The typo has been corrected.

#4 Please refer to section 4.2 of the revised test report.

Best regards,

S. S. Liou

Engineer / EMC Dept. II

Electronics Testing Center, Taiwan

AN05T4482, Notice#1

Question #1: Based upon FCC 15.214(d)(3), a statement of the means and procedures used to achieve the required protection shall be provided in any application for equipment authorization of a cordless telephone. Please provide an attestation statement. The possible statement could be:

"We provide a fixed code that is continuously varied among 65,536 discrete digital codes as each telephone is manufactured."

Question #2: The user manual does not contain user information as specified in FCC15.21.

Question #3: Sheet 18 of the test report shows a wrong fundamental frequency. Please correct the test report.

Question #4: For the headset, the report does not show that three orthogonal planes (X, Y, Z) investigation has been done. Please explain.

Best Regards,

Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
