of Transportation  
**Federal Aviation  
Administration**

JUL 29 2010

Mr. Andy Leimer  
Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

Dear Mr. Leimer:

We have received the Honeywell International Inc. letter for Federal Communications Commission (FCC) Certification application of the Honeywell HS-720 High Speed Data Unit with FCC-ID: GB8HS-720, dated July 7, 2010. We have reviewed the submitted information for the high-speed data unit, which is a one Line Replaceable Unit of three in the Honeywell MCS-7200 SATCOM system that functions in the 1525-1559 MHz receive band and 1626.5-1660.5 MHz transmit band. We have no objection to the FCC Certification of this Honeywell HS-720 High Speed Data Unit.

If you require any additional information, please contact Ms. Annette Allender, Electronics Engineer, Spectrum Planning and International Group, at (202) 267-3893 or e-mail [annette.allender@faa.gov](mailto:annette.allender@faa.gov).

Sincerely,

A handwritten signature in black ink, appearing to be "RAF", with a long, sweeping horizontal line extending to the right.

Robert A. Frazier  
Manager, Spectrum Planning and  
International Office
