**RE: Class II Permissive Change for FCC ID: GB8TR865A, Granted 04/28/2003**

To Whom It May Concern:

We, Honeywell International Inc, are submitting an application for Class II Permissive Change against FCC ID: GB8TR865A, Aviation VHF Transceiver.

The changes filed under this application are: (list each change as a bullet point)

- Update test data for emission designator 6K00A3E. Aviation VHF Transceiver, FCC ID GB8TR865A, has component changes due to obsolescence that affect the transmitter output devices. Test data for is being updated to verify that the updated product still meets the emission designator.

Please contact me if you have any questions or need further information regarding this application.

Sincerely,

Steven Jensen  
Sr Engineer
