

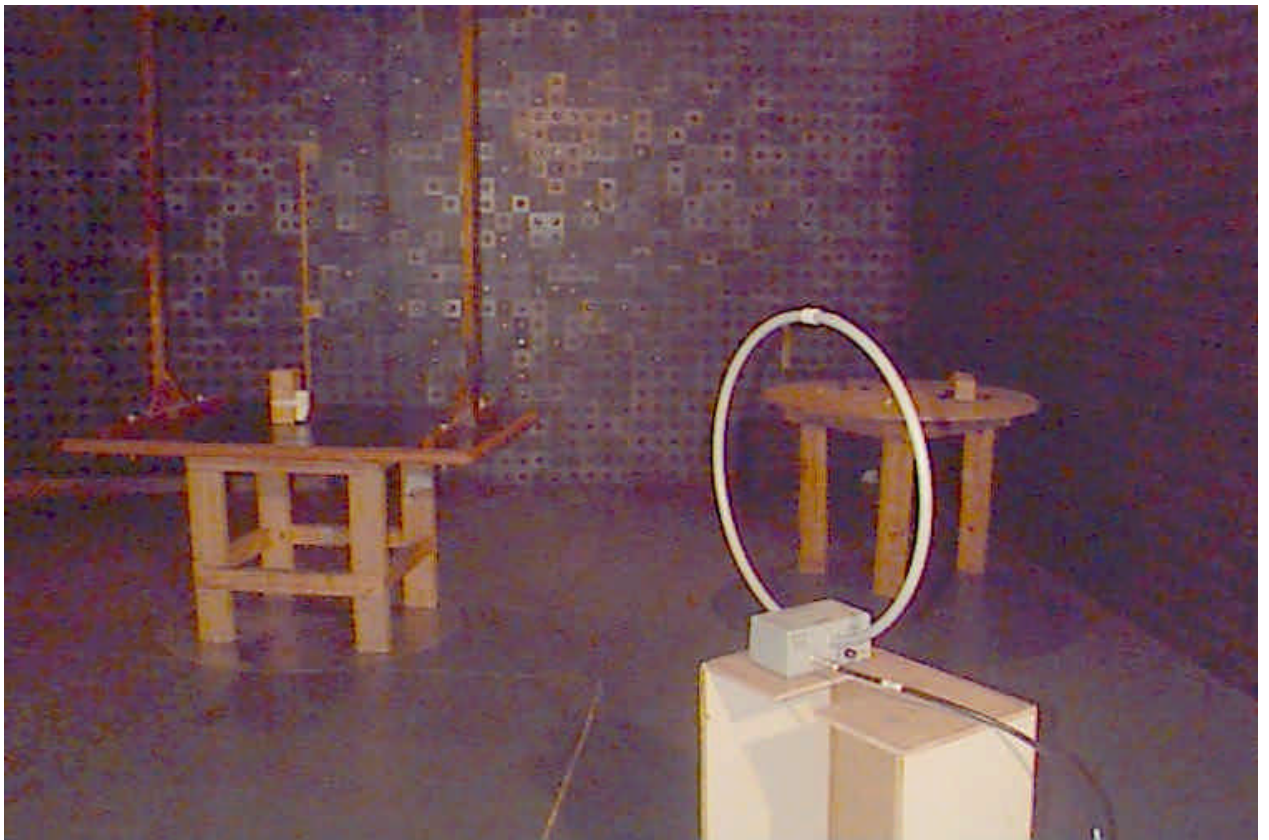

Photograph 1

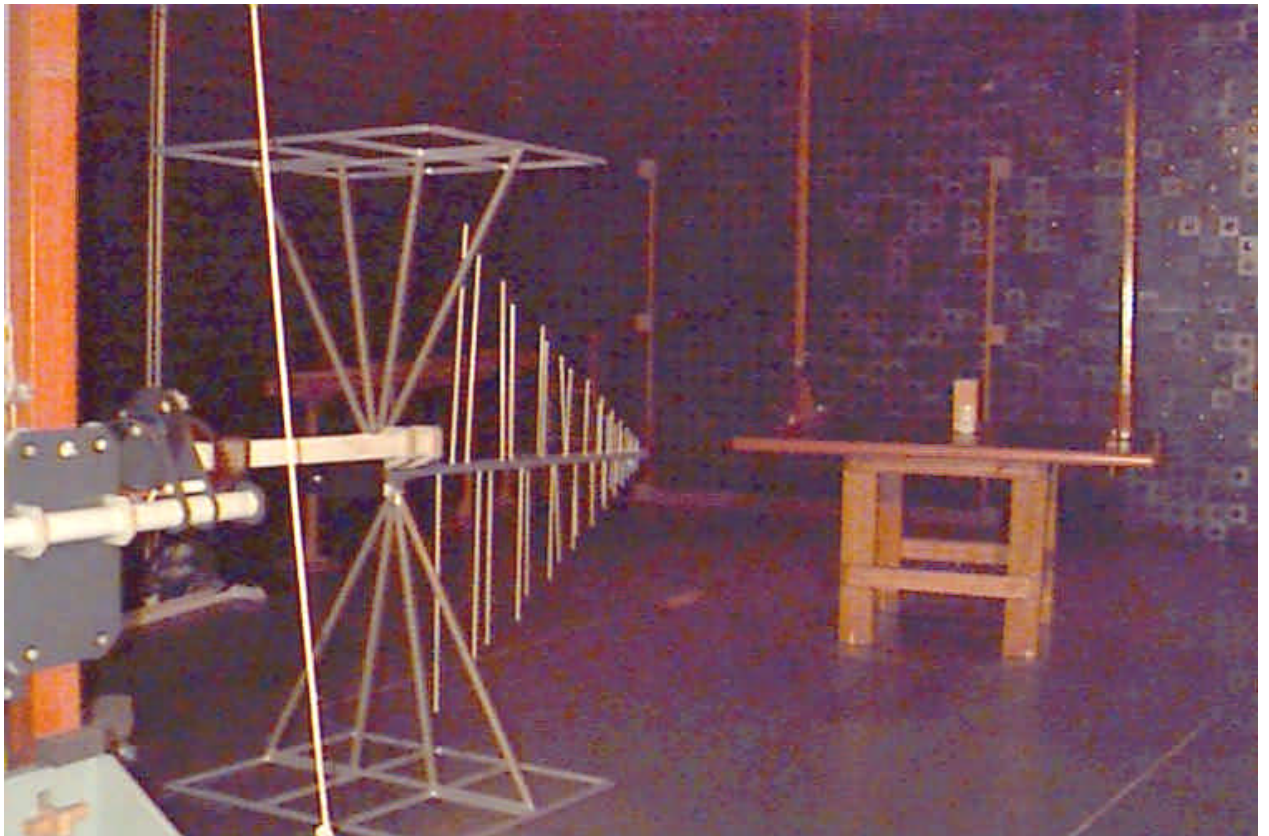

Spurious emission measurement setup in 9 kHz – 30 MHz range,

Loop antenna in vertical polarization

Photograph 2

**Spurious emission measurements in 30 – 2000 MHz range,
Biconilog antenna in vertical polarization**

Photograph 3

**Spurious emission measurements in 2000 – 3200 MHz range,
Double ridged guide antenna in horizontal polarization**

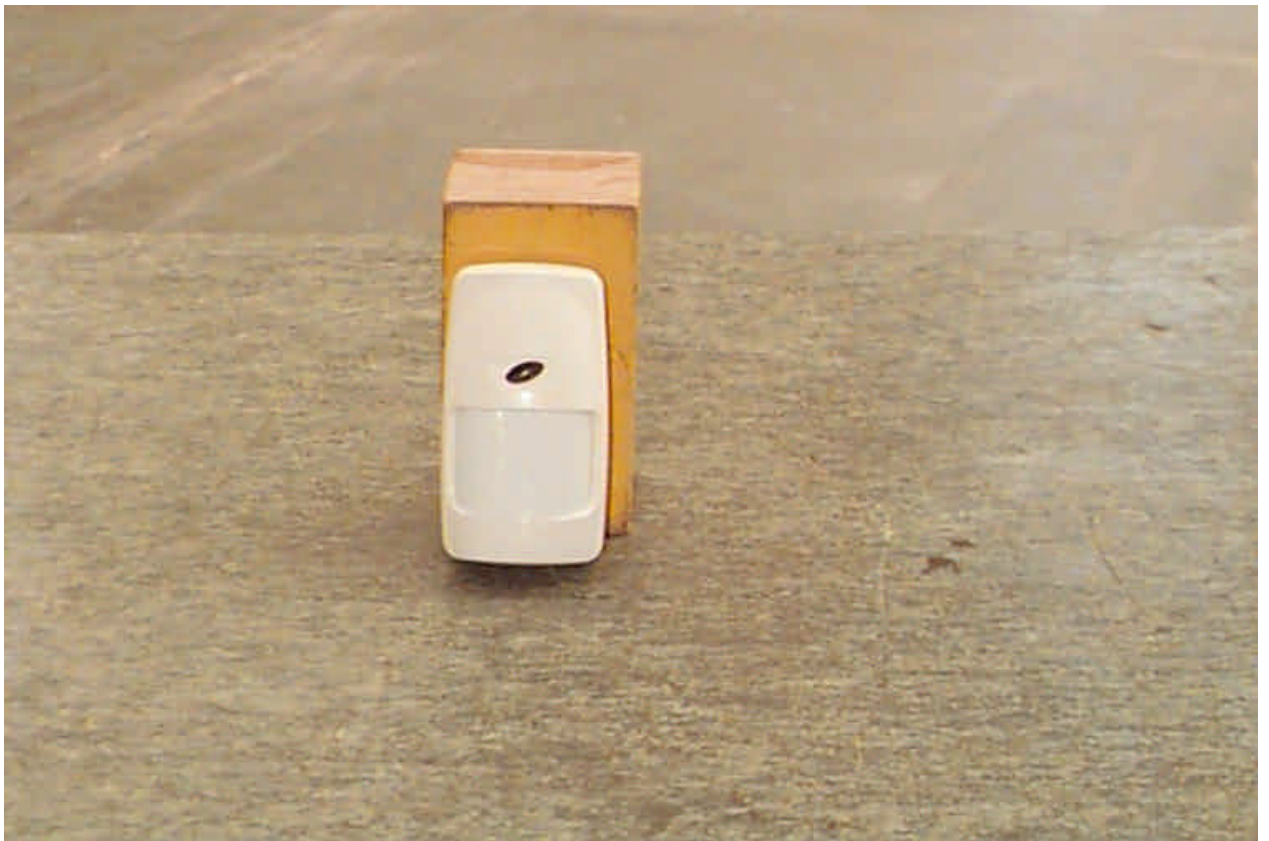

Photograph 4

**Field strength of fundamental measurements,
Log periodic antenna in horizontal polarization**

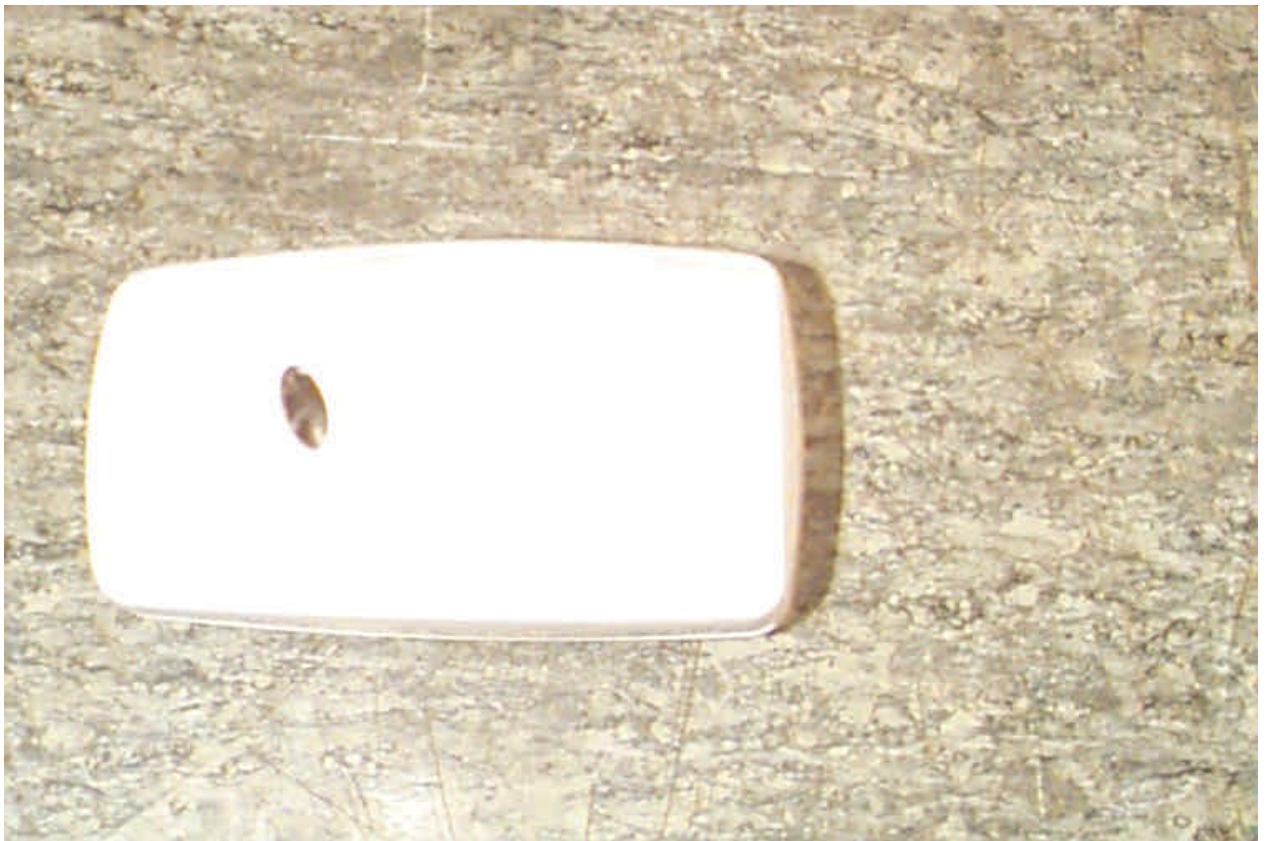

Photograph 5

EUT setup view, OATS measurements

Photograph 6

EUT setup view, OATS measurements

Photograph 7

**Harmonics measurements in OATS,
Double ridged guide antenna in horizontal polarization**
