July 24, 2003

RE: Visonic Ltd.

FCC ID: GSANEXTMCW

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Confidentiality does not appear to have been requested with this application. Please confirm that this application does not require confidentiality or alternatively provide a letter requesting confidentiality on the appropriate items.
- 2) Clear top and photographs of the TX board removed from the main board should be provided. It would also be recommended to provide a rear photograph of the main board with the TX removed.
- 3) It is not clear if the TX board is manufactured by Visonic Ltd. or if this is an OEM part. If it is an OEM part, please provide a parts list that shows this. If not, please provide the block diagram and schematic for the TX board.
- 4) Please provide a plot that shows that the device stops transmitting within 3 seconds per event as specified in the users manual and is in compliance with 15.231(a).

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
