Columbia, MD 21046

To Whom It May Concern:

This letter is to request modular Approval for the product FCC ID: GTC029994TXR. This product is a modular RF Transceiver which consists of a completely self-contained radiofrequency transmitter and can be used in (INNCOM guestroom and network controls equipment. This product will be available to Only authorized companies within our internal distribution list). I hereby do attest that the following conditions have been met.

- 1.) The radio elements of the modular transmitter do in fact have their own shielding. The physical crystal and tuning capacitors are not located external to the shielded radio elements.
- 2.) The modular transmitter has buffered modulation/data inputs to ensure that the module will comply with part 15 requirements under conditions of excessive data rates or over-modulation.
- 3.) The modular transmitter does have its own power supply regulation.

Sincerely,

A handwritten signature in black ink, appearing to read "Ryan Gardner", written over a horizontal line.
