Micro USB Cable
User Manual

User Manual
BTK-059

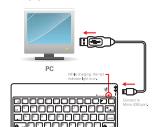

NOTE: Regarding battery life:
Continuous use: up to 40 hours. Stand by: 300 hours.

Using the wireless bluetooth keyboard

Charging the keyboard

Charge your Bluetooth Keyboard fully before use.

1. Connect the small end of the included Micro USB Cable to the USB port on the back of the keyboard.
2. Connect the large end of the included Micro USB cable to an available USB port on your computer (or other device) made for USB charging.

Turning the Keyboard ON/OFF

1. To turn ON: Slide the switch to the ON position. The Bluetooth LED Charge Indicator Light on the Keyboard will light with a slow blink.
2. To turn OFF: Slide the switch to the OFF position. The Bluetooth light will blink 2 times and the Keyboard will turn OFF.

Pairing the Keyboard to a Bluetooth enabled tablet

1. Make sure the Bluetooth Keyboard is turned ON.
Press and HOLD the [Pair] button for 6 full seconds and the LED Charge Indicator Light will begin to blink.

NOTE: When turned ON, the Keyboard will automatically connect to the last device it was paired with. To pair with another device, turn OFF the Keyboard and then turn ON again. The LED Charge Indicator Light on the Keyboard will turn OFF.

3. Turn ON the tablet (or other Bluetooth device) and place it within 3 feet of each other during the pairing process.
4. Turn ON the Keyboard and other Bluetooth device to search for Bluetooth devices.

Android connecting settings

iPad connecting settings

Step 1:
On your iPad, tap the  icon from the Home Screen.

Step 2:
Click **General**

Step 3:
Click **Bluetooth**

Step 4:
Toggle Bluetooth to **On**

Step 5:
The keyboard will show up under **Devices** on the iPad. Select **Bluetooth Keyboard**.

Step 6:
A code will appear on the screen. Enter this code on the keyboard and click **Enter**.

A message will pop up when pairing is successful. If pairing fails, repeat the steps above.

Legal information

FCC Part 15:
Warning: Changes or modifications to this unit not expressly approved by the manufacturer for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits of a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

This device complies with Industry Canada RSS-240. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.
