In the box

Location of controls

Charging the Bluetooth Speaker

1. Connect the small end of the Mini USB charging cord into the Mini USB charging port on the back of the speaker.
2. Connect the other end of the Mini USB charging cord to your computer's USB port.
3. The LED indicator light turns RED when charging.
4. The LED indicator light turns BLUE when finishing charging.

Pairing the PBT502

1. Turn the PBT502 on by moving the Power ON/OFF switch to the ON position. The BLUE LED light will blink and enter pairing mode.
2. Keep your PBT502 and Bluetooth enabled device within 3 feet of each other during the pairing process.
3. Set your mobile phone or other Bluetooth enabled device to search for Bluetooth devices.

On an iPhone

- Go to SETTINGS > GENERAL > BLUETOOTH (Make sure Bluetooth is turned ON)

On a BlackBerry

- Go to SETTINGS/OPTIONS > BLUETOOTH
- Enable BLUETOOTH

On an Android Phone

- Go to SETTINGS > BLUETOOTH > MENU > Search for devices (Make sure Bluetooth is turned ON)

On other Cell Phones/Devices

Review the instruction manual that came with your phone/device.

NOTE: The illustrations above are of many Bluetooth enabled phones today, and are used to explain the pairing process. Your mobile phone's interface and interaction with the headphones may be slightly different from the illustration above.

4. When the Bluetooth enabled device finds the PBT502, confirm by selecting PBT502 from the list. If asked for a passcode, enter "0000" (four zeroes).
5. After a successful registration, the LED Indicator light will become solid BLUE.

Using your Bluetooth Speaker

Powering ON/OFF

- To turn ON, move the Power ON/OFF switch to the ON position. The BLUE LED light will blink.
- To turn OFF, move the Power ON/OFF switch to the OFF position. The LED light will turn off.

Answering / Ending a call

- To answer a call, quickpress the [P/II] button.
- To end a call, quickpress the [P/II] button.

To make a call

Dial the number and press the send button on your mobile phone, the call is automatically transferred to the speaker.

Rejecting calls

To reject an incoming call, press and hold the [P/II] button.

Redialing the last number called

(Dependent on your phone supporting this feature)
Quickpress the [P/II] button twice. The last number called will be redialed.

Using as a Wired Speaker

The PBT502 can be used as a wired speaker by using the included 3.5mm auxiliary cable.

1. Make sure the Bluetooth Speaker is plugged in and ON.
2. Plug one end of the auxiliary cable into the AUX IN jack located on the back of the speaker.
3. Plug the other end of the auxiliary cable into the headphone jack of any media device, which has a 3.5mm headphone jack.
4. Use your media device's music controls to control the music and volume. (The controls on the speaker will not function when using PBT502 as a wired speaker.)

NOTE: When the AUX IN cable is connected, the AUX IN source will be selected and there will be no audio output from the Bluetooth source.

Playing Music

Once connected via Bluetooth, you can control all functions with your BT device. To play music, you can press the [P/II] button on the PBT502. Some devices require you to start playing music on your device first. Once playback has begun, you can PLAY/PAUSE the music by pressing the [P/II] button of the Bluetooth speaker (not all mobile phones support the control of music using Bluetooth).

Play/Pause

Press the [P/II] button to pause the music. To resume music playback, press the [P/II] button

Adjusting Volume

-Press and hold the [L/II] and [R/II] buttons to adjust the volume level.

Skipping Songs

-During playback, quickpress the [L/II] button to play the previous track and the [R/II] button to play the next track.

Answering / Ending Calls

If the Bluetooth enabled device you are using to play music is a mobile phone and you receive a phone call, the music will be interrupted.

1. To accept the call, quickpress the [P/II] button. If you accept the call, the conversation will be played by the Bluetooth Speaker. You can speak into the microphone of the Bluetooth Speaker during the conversation. After you have ended the call, the devices will remain connected and playback will continue.

2. To reject the call, press and hold the [P/II] button. If you reject the call, playback will continue.

***The Polaroid Bluetooth Speaker is compatible with any brand of Bluetooth-enabled phone or music device that supports Advanced Audio Distribution Profile (A2DP) and Audio Video Remote Control Profile (AVRCP).**

In order for Bluetooth devices to communicate with one another properly, they must utilize the same Bluetooth profile. To determine the profiles supported by your device (mobile phone, gaming console, computer or mp3 player), please refer to the device's user guide.

Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth-enabled devices, and/or the functionality of such features may be limited in certain devices.

Troubleshooting tips

The Bluetooth Speaker won't turn on.

-The battery may be exhausted. Try charging the battery.

There is no audio signal through the Bluetooth connection.

If the Bluetooth Speaker is turned OFF, then turn it ON.

The Bluetooth Speaker may not be paired to the Bluetooth enabled device. Try checking whether the connection exists. If necessary, try pairing the Bluetooth enabled device to the Bluetooth Speaker again.

The volume level of the Bluetooth enabled device may be too low. Try increasing the volume of the Bluetooth enabled device.

I can pair the Bluetooth Speaker with my Bluetooth enabled device, but I cannot hear any music?

Make sure your Bluetooth enabled device supports A2DP profile.

Turn up the volume on your Bluetooth enabled device.

For some Bluetooth enabled devices, you must open your Bluetooth settings and make sure "media" is turned ON.

My Bluetooth enabled device is not able to pair with the Bluetooth Speaker.

Turn the PBT502 on by moving the Power ON/OFF switch to the ON position. The BLUE LED light will blink and enter pairing mode.

Keep your Bluetooth Speaker and Bluetooth enabled device within 3 feet of each other during the pairing process.

After a successful registration, the LED Indicator light will become solid BLUE.

Try repeating the pairing process, see "Pairing the PBT502".

Safety information

Observe all signs in the designated areas where some electronic devices or HF radio products are required to be switched off. These could include airplanes, hospitals, blasting areas, and potentially explosive atmospheres.

Drive Safe

Driving while talking on your mobile phone is dangerous, and illegal in many states.

Although this device enables conversations, it is still dangerous to drive and use a mobile phone at the same time. We recommend pulling over before making or answering calls, especially during adverse driving conditions. Please use your mobile phone, and our product responsibly while driving!

Legal information

FCC Part 15:
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the requirements for a Class B digital device under Part 15 of the Federal Communications Commission (FCC) rules. These requirements are intended to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Do not attempt to repair or modify this equipment.

Shielded USB cables must be used with this unit to ensure compliance with the Class B FCC limits.

PLR IP Holdings, LLC, its licensees and affiliates, fully support all electronic waste initiatives. As responsible stewards of the environment, and to avoid violating established laws, you should properly dispose of this product in compliance with all applicable regulations, directives or other governance in the area where you reside. Please check with local authorities or the retailer where you purchased this product to determine a location where you can appropriately dispose of the product.

You may also go to HYPERLINK "http://www.polaroid.com" www.polaroid.com and reference About / Electronic Recycling to learn more about the specific laws in your area and to locate a collection facility near your home.

If your electronic device has internal memory on which personal or other confidential data may be stored, you may want to perform a data sanitization process before you dispose of your device to assure another party cannot access your personal data. Data sanitization varies by the type of product and its software, and you may want to research the best sanitization process for your device before disposal. You may also check with your local recycling facility to determine their data sanitization procedures during the recycling process.

Limited Warranty

This product as supplied and distributed new by AIT, Inc. ("AIT") to the original consumer purchaser is warranted by AIT against defects in material and workmanship for a period of one year from your date of purchase ("Warranty"). In the unlikely event that this product is defective, or does not perform properly, you may within one year from your original date of purchase return it to the authorized service center for repair or exchange.

TO OBTAIN WARRANTY SERVICE:

- Provide proof of the date of purchase within the package (Dated bill of sale).
- Prepay all shipping costs to the authorized service center, and remember to insure your return.
- Include a return shipping address (no P.O. Boxes), a telephone contact number, and the defective unit within the package.
- Describe the defect or reason you are returning the product.

Your product will be repaired or replaced, at our option, for the same or similar model of equal value if examination by the service center determines this product is defective. Products received damaged as a result of shipping, will require you to file a claim with the carrier.

The shipping address of the authorized service center is:

AIT, Inc.
AITN Customer Service (2nd Floor)
14-C 53rd Street
Brooklyn, NY 11232
