EXHIBIT C
PHOTOGRAPHS

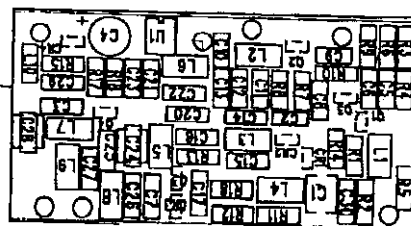

A. Photographs:

Photographs of the circuit board are presented with this exhibit. The antenna is a trace on the circuit board.

The following photographs are presented:

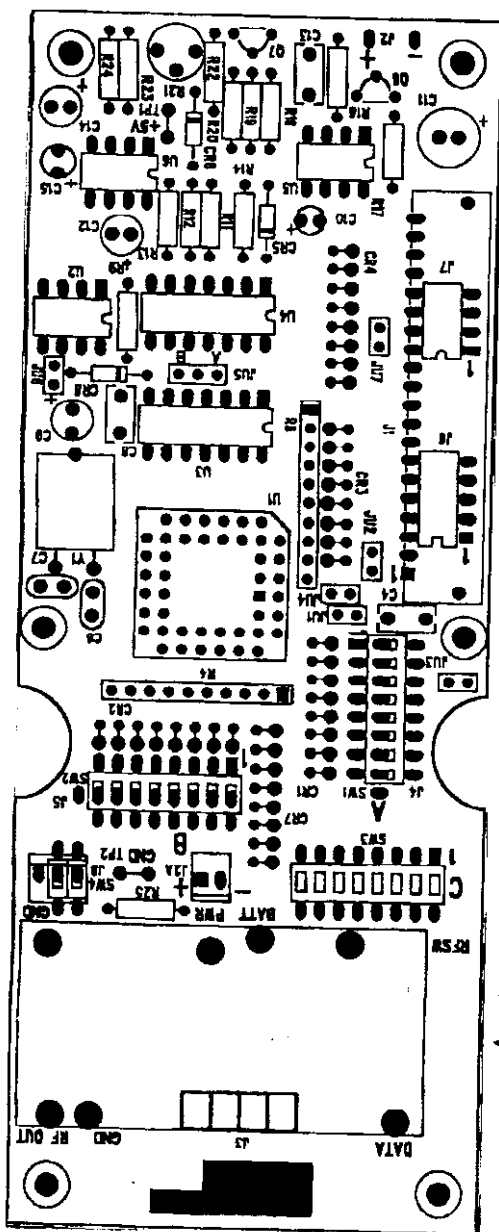

Photo	Description
C1	View of RF module circuit board, front and back

REFERENCE NUMBER: 3221

RF board

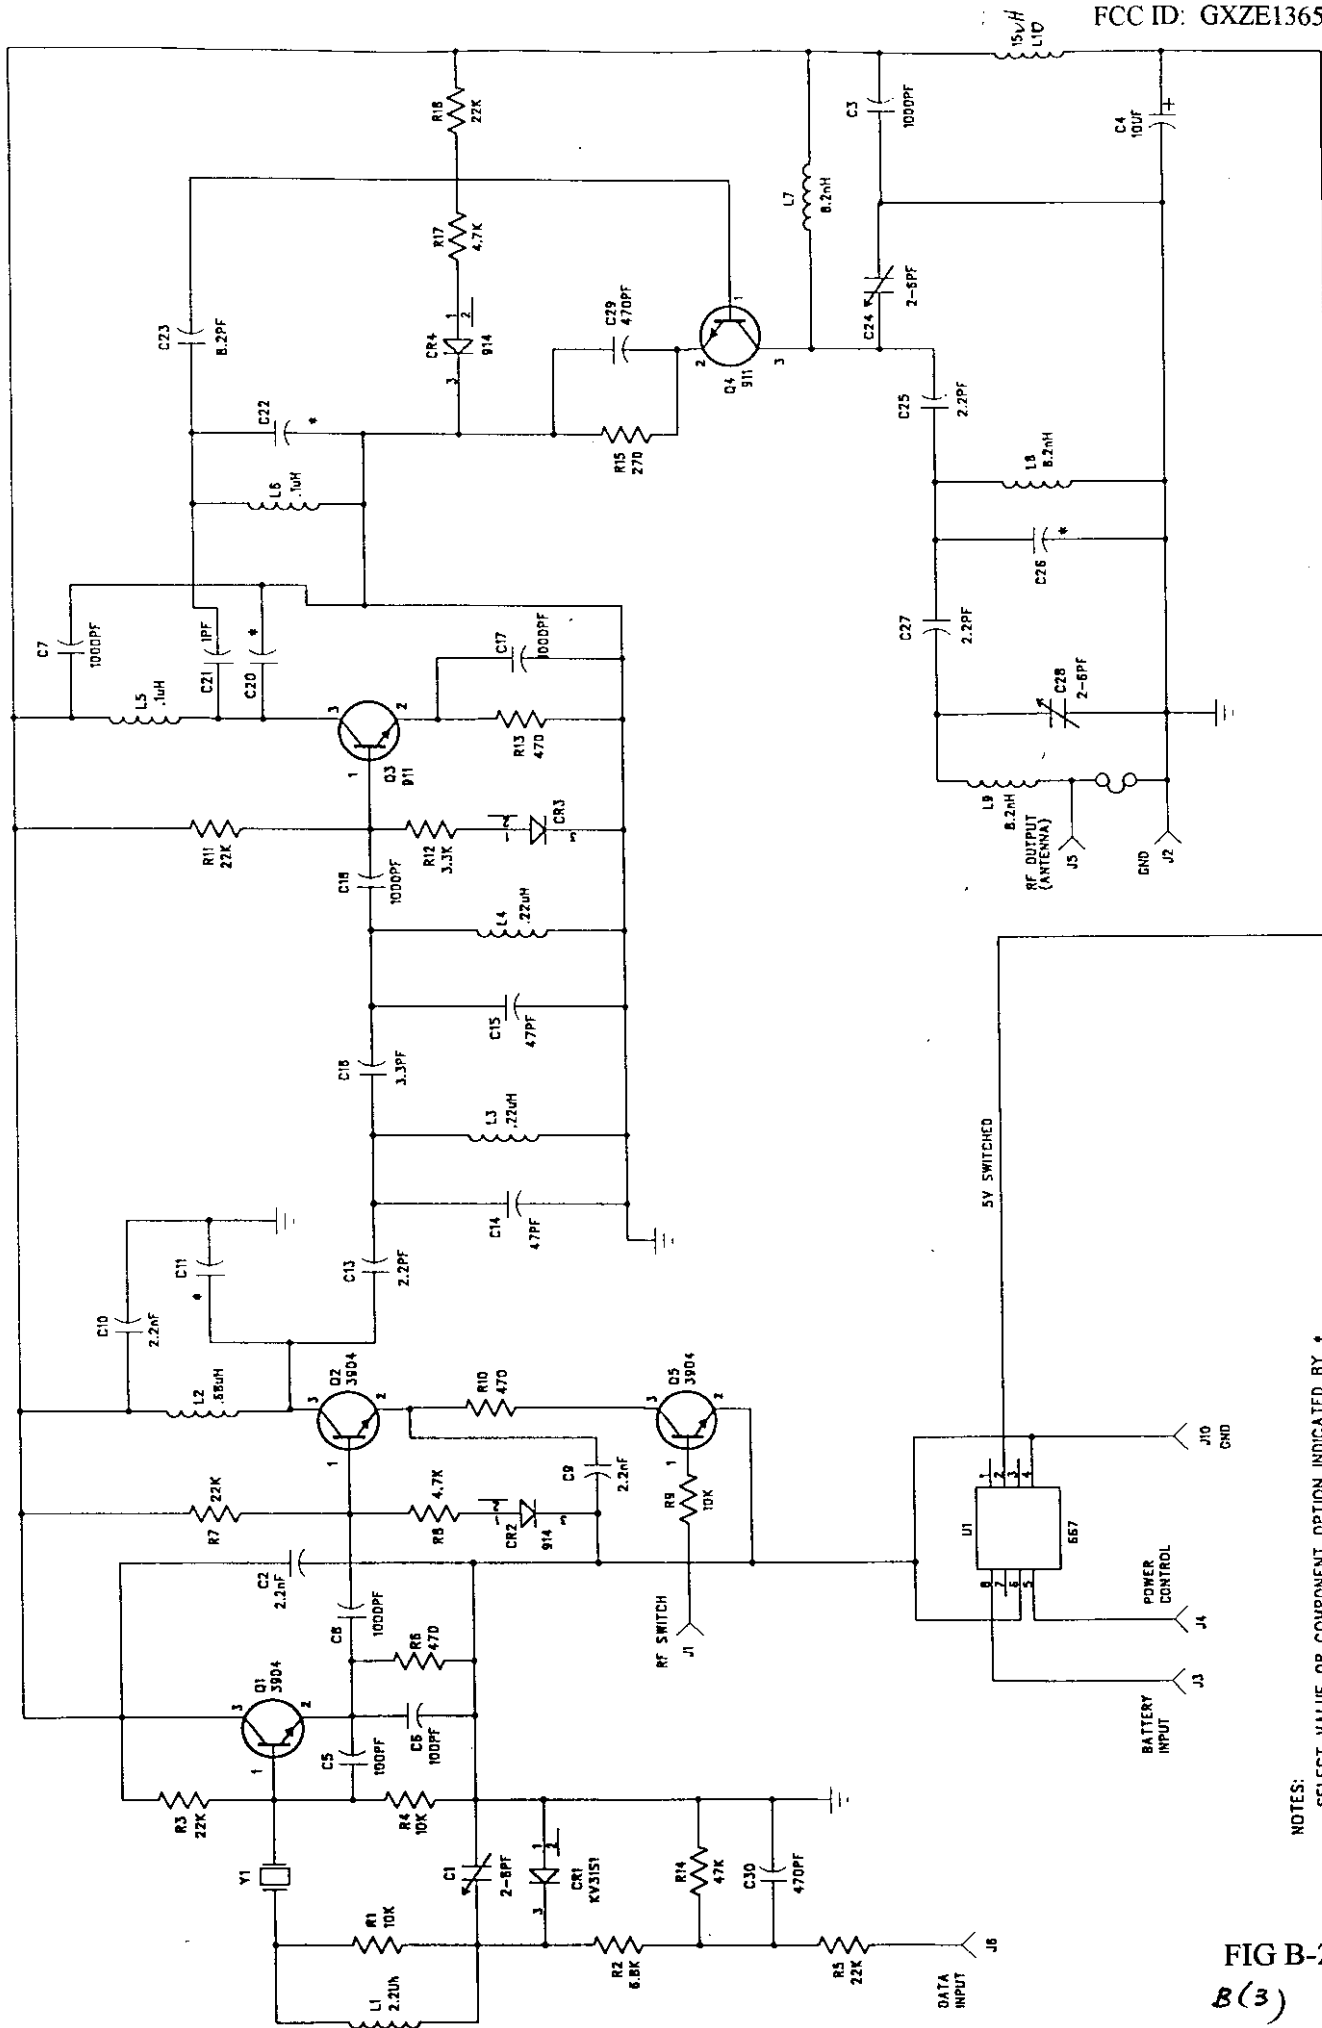

RF board is permanently soldered to the control board resulting in a complete working remote control transmitter except for the required momentary switches.

Control board

Project Engineer
Jim Mueller

Sincerely,
