

Validation of Shuang Guan as valid ASOP.

FCC Questions and responses:

1. Is the address of the agent a valid physical US mailing address (not a US post office box, not a virtual mailbox, not P.O. Boxes, not a vacant lot, not a public building, etc.)
– This location can be seen as an office building for Hisense USA within multiple mapping websites such as Google Maps as well as being listed as the address in their official website - <https://www.hisense-usa.com/contact> and is not a virtual mailbox or P.O. Box.
2. Is the agent physically located at that valid US address such that the agent can be legally served at that address? – This was confirmed via a separate email to this agent as seen below.
3. Has the listed agent clearly agreed in writing to serve as the agent for the grantee at that address? – This was also confirmed via a separate email as seen below.
