New FCC ID: HBW0718 for our Universal Clicker Remote Control Transmitter

To whom it may concern,

We would like to submit for a new FCC ID (HBW0718) for our Universal Clicker Remote Control Transmitter. There are two circuit assemblies for this product (003-0718-1 and 003-0718-2). The difference between the two circuit assemblies is that 003-0718-1 has a 12-DIP switch and 003-0718-2 does not. Refer to the table below which identifies which remote models use which circuit assembly.

<b>Remote Model</b>	380UT	KLIK5C-BK2, KLIK5C-SS, KLIK5U-BK2, KLIK5U-SS, KLIK5U-WP
<b>Circuit Assembly</b>	003-0718-1	003-0718-2

Remote models KLIK5C-BK2, KLIK5C-SS, KLIK5U-BK2, KLIK5U-SS and KLIK5U-WP all have identical radio transmitters and differ due to color of the external enclosure and where it's marketed.

Please find in the following application all related documentation to support this new certification.

We would appreciate your prompt attention to the submittal. If there are any questions, please contact me by phone, fax, or email.

Sincerely,

*Tom DeSilvia*
