A small, dark, irregularly shaped electronic component, possibly a sensor or microcontroller, is shown on a blue background. The component has a white label with some text and a white ribbon cable attached to one side. A black ruler with white markings is placed next to the component for scale, showing measurements in millimeters. The ruler is oriented vertically, with the component positioned horizontally next to it. The ruler has markings from 0 to 100 mm on the left side and 0 to 100 mm on the right side. The component is located between the 40 mm and 60 mm marks on the left side of the ruler.
