Modular Approval Request

FCC ID: **HD5-BTM1**

The following attestation addresses the requirements to support modular approval:

Modular approval requirement	Yes (provide brief statement)	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	Yes The module has a full-wrap metal shielding on the top.	
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	Yes The module has buffer modulation circuit.	
(c) The module must contain power supply regulation on the module	Yes The module has clear power supply requirements.	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	Yes The module contain a permanently attached antenna.	
(e) The module must demonstrate compliance in a stand-alone configuration	Yes The module is not placed in any host during the test.	
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	Yes The label containing the FCC ID is attached to the shield.	
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	Yes The manufacturer provide adequate instructions along with the module.	

Modular approval requirement	Yes (provide brief statement)	No *
(h) The module must comply with RF exposure requirements	Yes The module meets the limits for maximum permissible exposure according to FCC Part1.1310.	

* Please provide a detailed explanation if the answer is "No."

Sincerely,

Signed:
