Annexure - I : Test Setup Photos

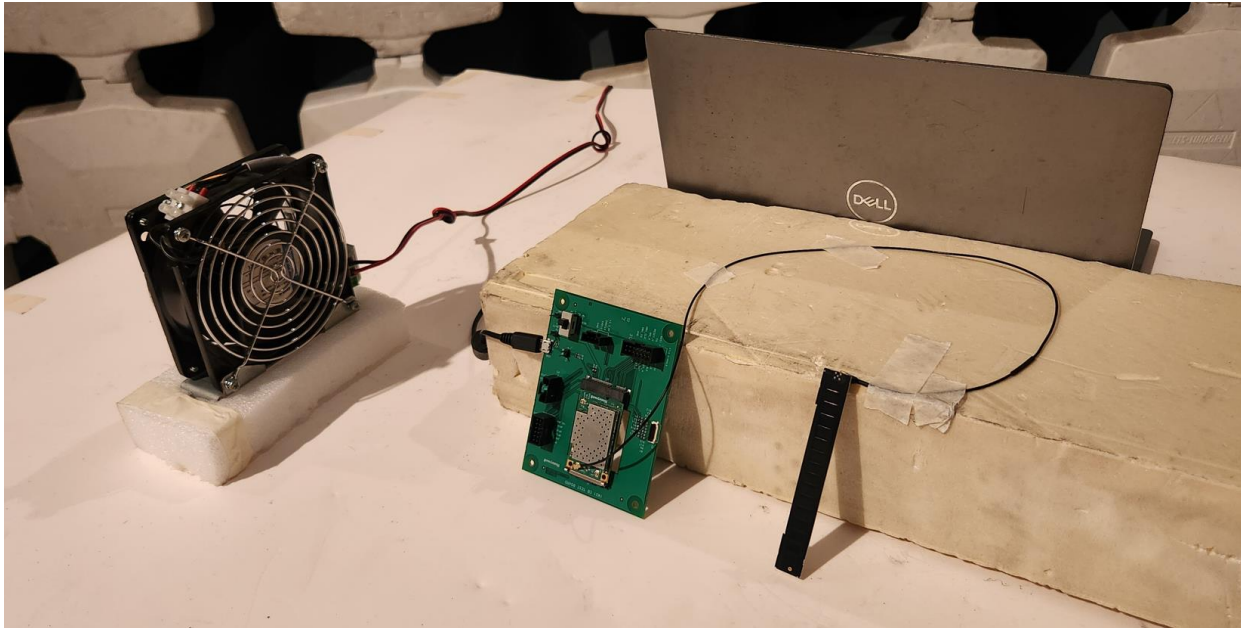

Conducted Emission on AC Mains Setup

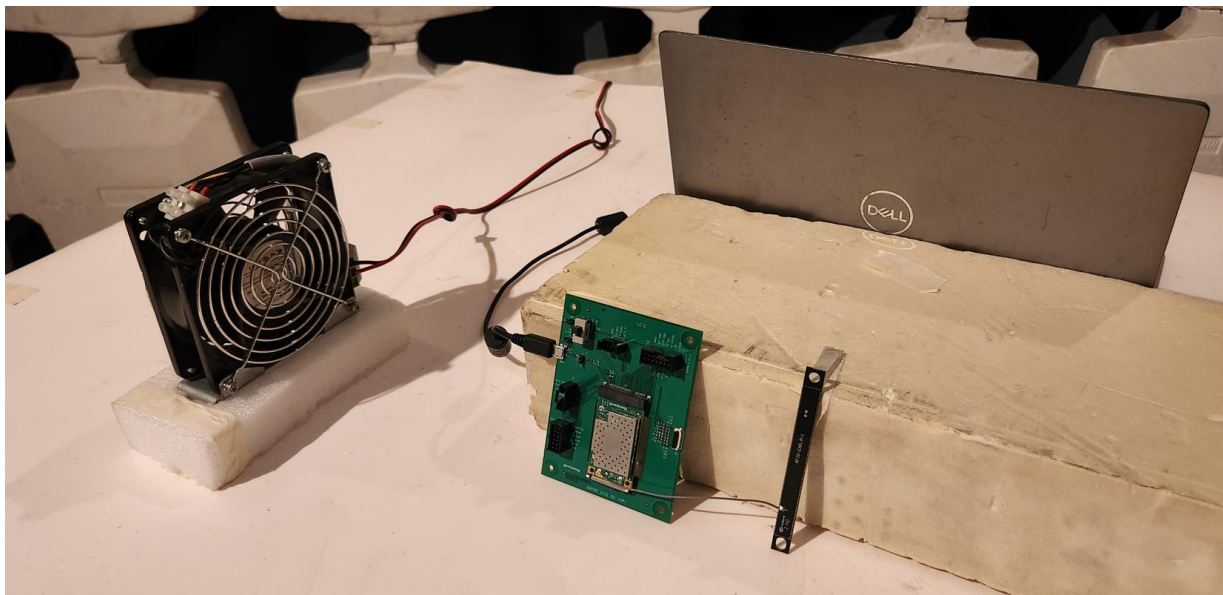

Conducted Emission Test setup on Power Lines (110VAC-60Hz)

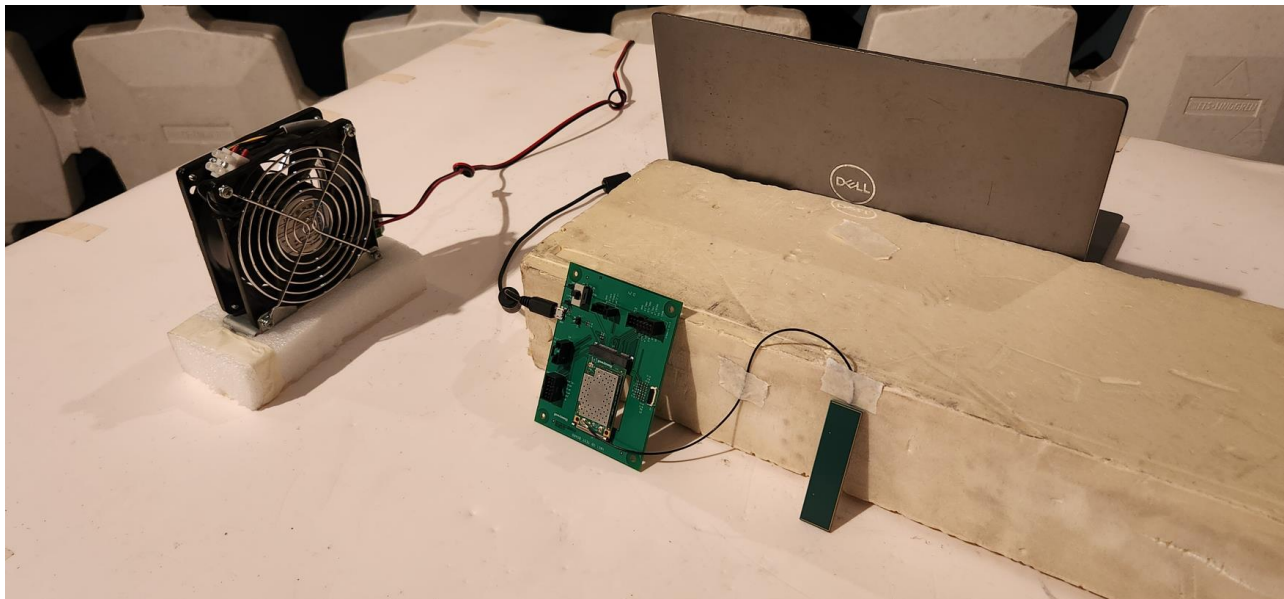

Conducted Emission Test setup on Power Lines - EUT arrangement on Test Table

Radiated Emission Test Setup – EUT arrangement

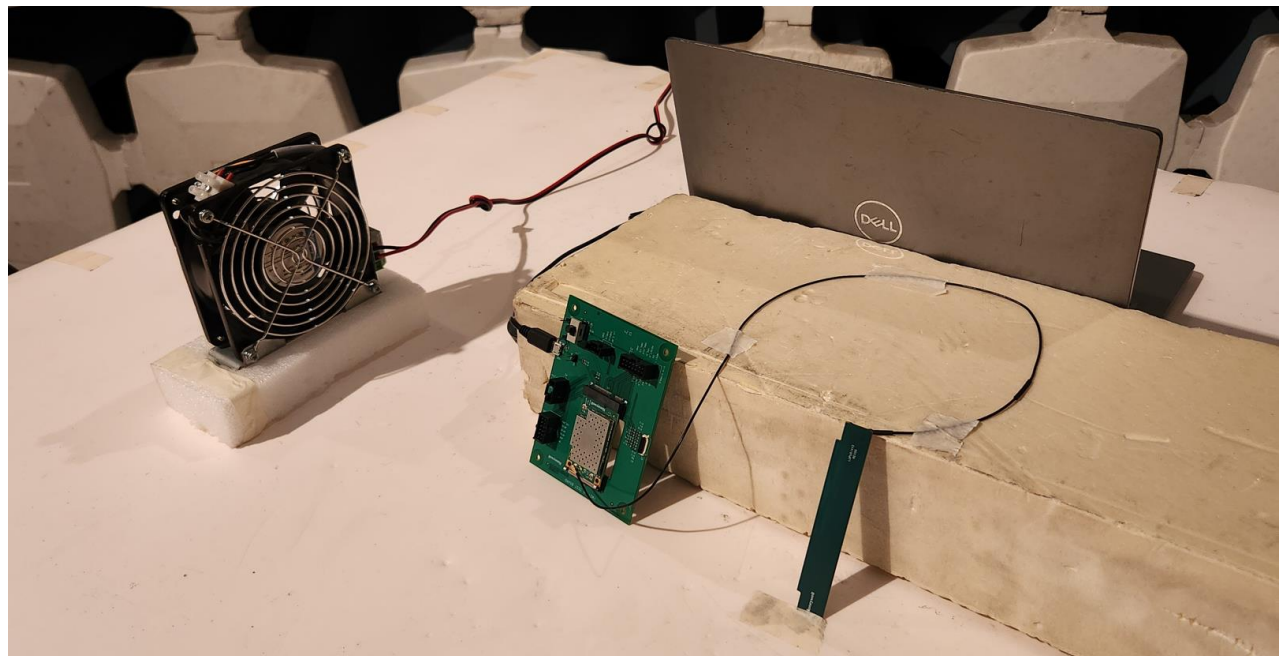

Radiated emission Test Setup – RFID Coupler (MAF95123-1 / 234-079-0600)

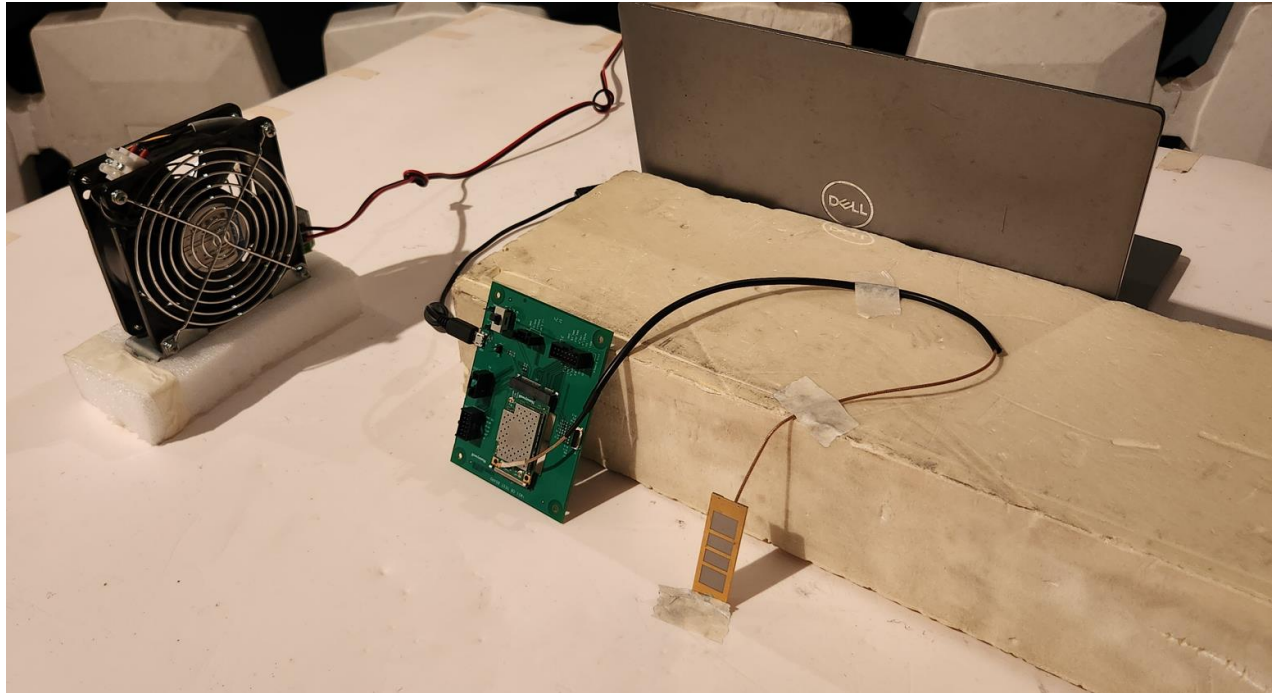

Radiated emission Test Setup – RFID Coupler (H2B1JH1A1H0200 / 710000068100)

Radiated Emission Test Setup – EUT arrangement

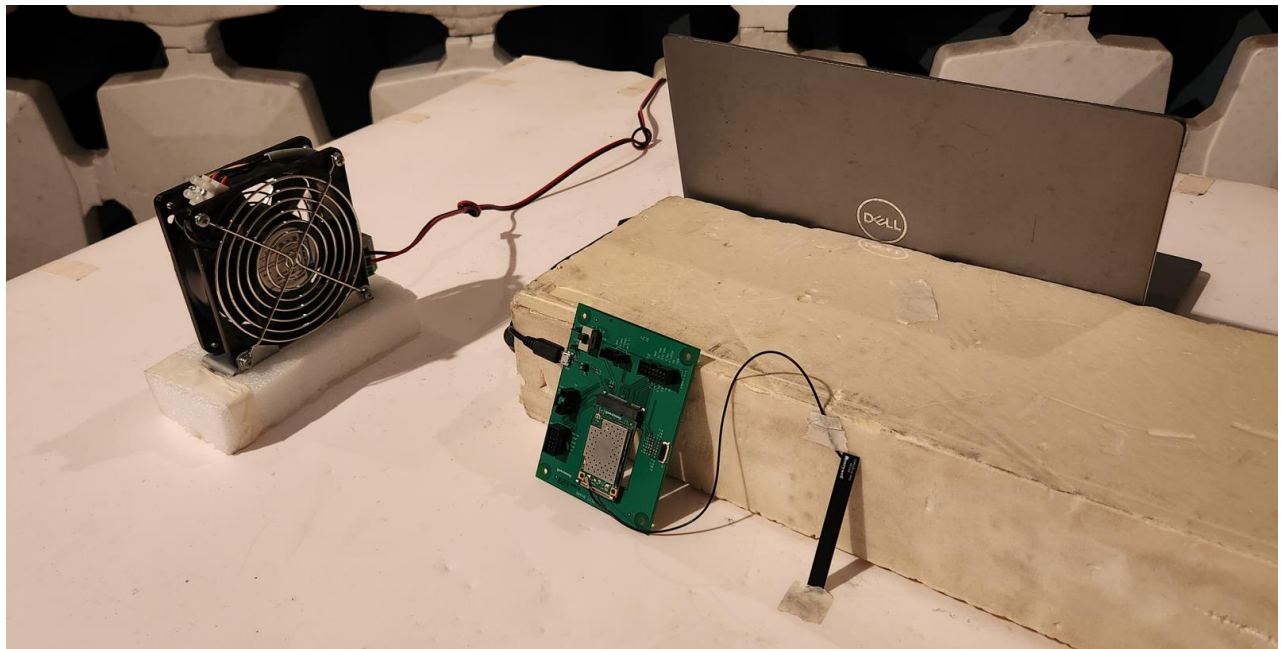

Radiated emission Test Setup – RFID Coupler (LUPUS32)

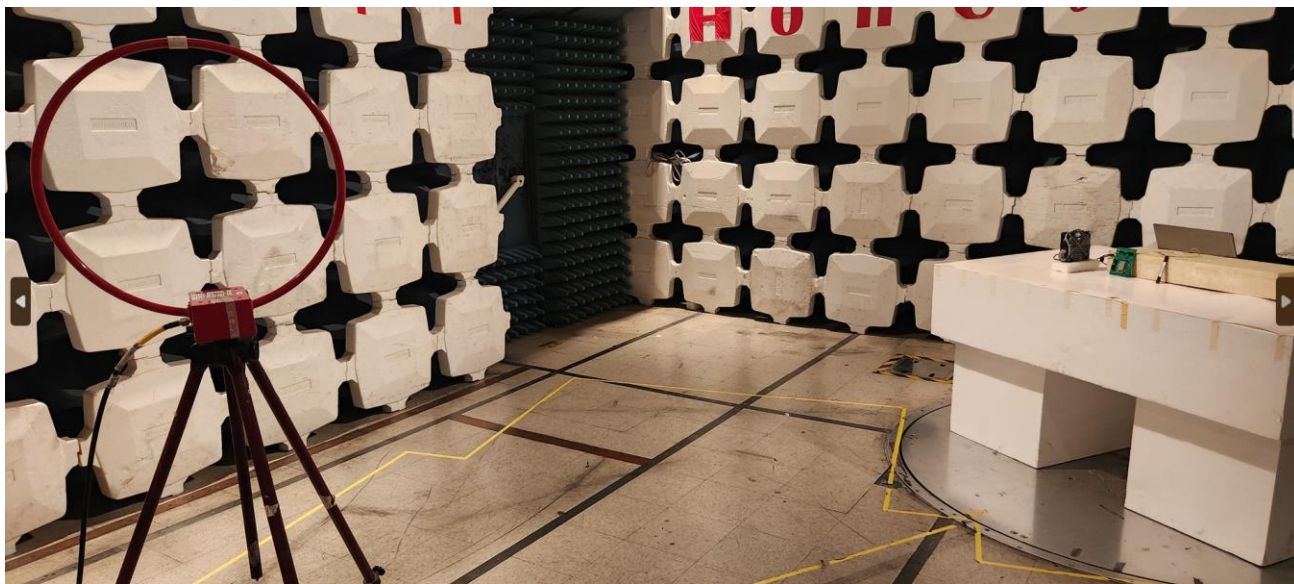

Radiated emission Test Setup – RFID Coupler (LUPUS14V2)

Radiated Emission Test Setup – EUT arrangement

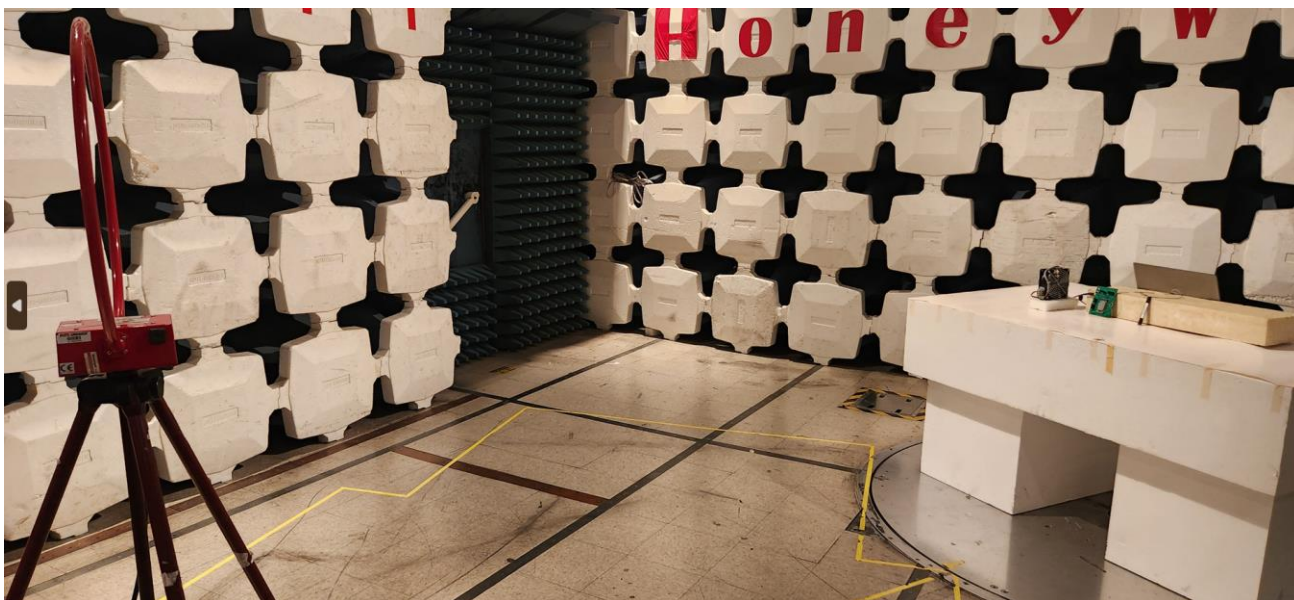

Radiated emission Test Setup – RFID Coupler (1-971140-001)

Radiated emission Test Setup – RFID Coupler (CORVUS10)

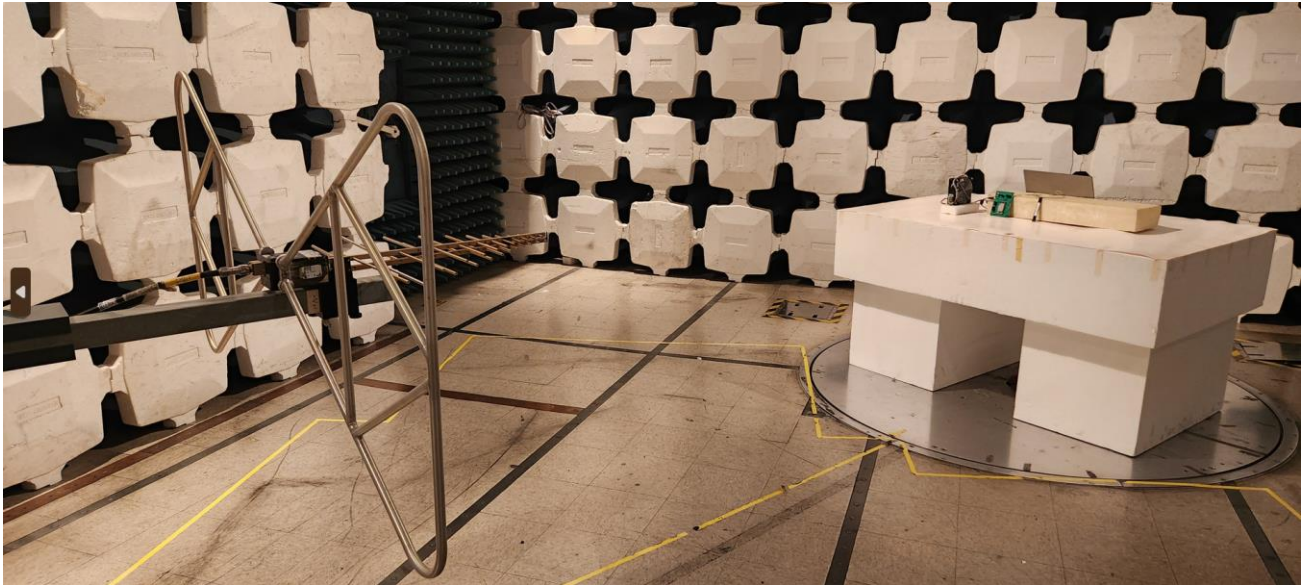

Radiated Emission Test Setup – 9KHz to 30MHz

Radiated emission Test Setup – Antenna Perpendicular to EUT

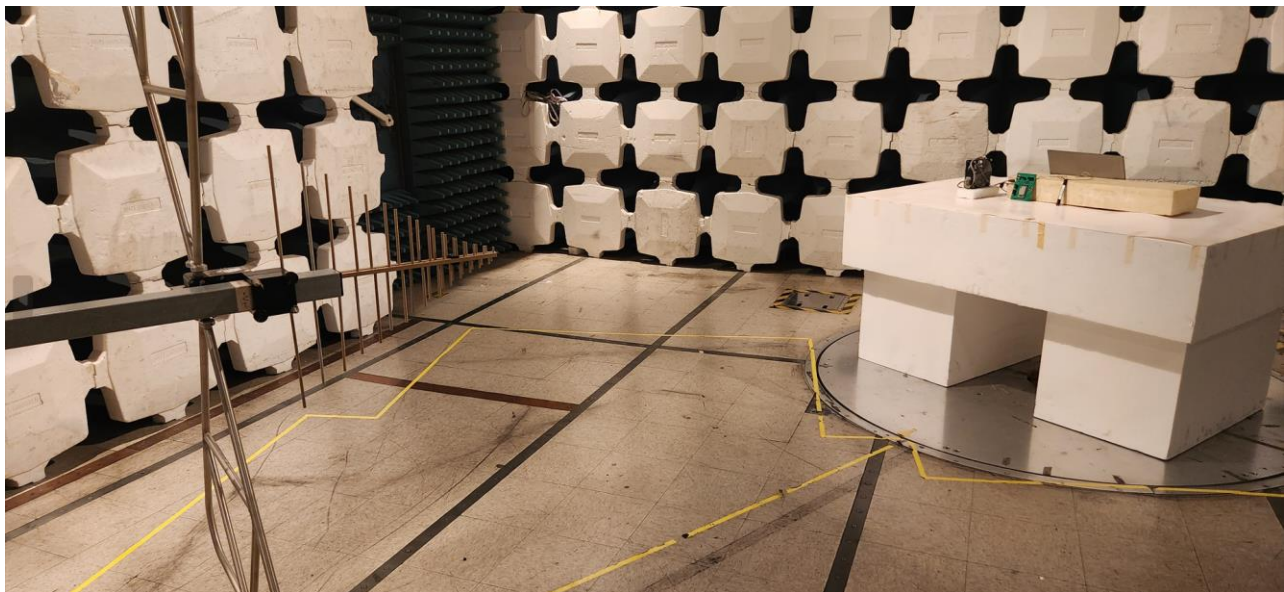

Radiated emission Test Setup – Antenna Parallel to EUT

Radiated Emission Test Setup – 30MHz to 1GHz

Radiated emission Test Setup – Horizontal Polarization

Radiated emission Test Setup – Vertical Polarization

Radiated Emission Test Setup – 1GHz to 10GHz

Radiated emission Test Setup – Horizontal Polarization

Radiated emission Test Setup – Vertical Polarization

Conducted RF Test Setup
