To Whom It May Concern:

This letter is to certify that the Dolphin 7600 II can only be used in the following GSM operational modes:

- Speakerphone
- Headset (wired or wireless)

Handset mode operation will not be enabled until the proper FCC certification requirements are met. It is also not possible for the customer to enable Handset mode on the device.

Furthermore, the primary customer use of this Enterprise-class device is expected to be data transmission.

Sincerely,

A handwritten signature in black ink, appearing to read "Mandana Moabshier".

Mandana Moabshier
Compliance Manager, Mobility Systems
