SETUP GUIDE

## Using the notebook for the first time

### Note:

Open the Start Menu and search for **Acer Documents** for help with setting up a network connection, using the touchpad, and other information which is important for your health and safety.

### WARNING!

To reduce the possibility of heat-related injuries or of overheating the computer, do not place the computer directly on your lap or obstruct the computer air vents. Use the computer only on a hard, flat surface. Do not allow another hard surface, such as an adjoining optional printer, or a soft surface, such as pillows or rugs or clothing, to block airflow. Also, do not allow the AC adapter to come into contact with the skin or a soft surface, such as pillows or rugs or clothing, during operation.

## Getting started with Windows 10

- 1. Start:** You can launch apps through Most used, all apps, or live tiles.
- 2. Cortana\***: Your personal assistant for finding apps, files, settings and information on the web.
- 3. Action Center:** You can view notifications and toggle quick actions to instantly adjust or open settings.

### How do I switch between apps?

Click the icon on the taskbar or press **Windows + <Tab>**, then you can see the thumbnails of all open tasks.

### How do I access Action Center?

Select the Action Center icon in the lower-right corner of the screen or press **Windows + <A>**.

### How do I use Cortana\*?

Select the Cortana icon and talk to Cortana.

\*You must be signed in to your Microsoft account to use Cortana. The Cortana feature is being progressively rolled out globally. It will be replaced by Windows Search in countries where it is not available.

### Connect to the internet

#### If using a wireless LAN:

Select the wireless icon at the lower-right corner of the screen and you will see the available wireless networks. Select a Wi-Fi network and enter the security key if required.

#### If using a LAN:

To connect to a wired network, please use a **USB-to-LAN converter cable** (optional). Please refer to your router's or ISP's user guide for additional assistance.

### Improve your computer's performance with Acer Care Center

#### My System Information and User's Manual

*My system* gives you clear information on your computer's information such as CPU, memory, or device drivers. Find manuals and other documents for your Acer product on the official Acer support website by going to <http://go.acer.com/?id=17883>

#### System and Driver Updates

*Update* provides you the latest drivers and updates for your computer, without requiring you to go to a website and enter your serial number.

#### Recovery Management

*Recovery Management* allows you to quickly and easily back up or restore your computer.

#### Customer Support

*Support* is your one-stop place to find answers for questions you may have.

Illustrations are for reference only. Actual product specifications may vary. Information contained in this poster is for Windows platforms only. Other operating systems may not support all the features listed.
