¥Dl®jG Acer Inc. , FCC ID: HLZZE1BG, Assessment NO.: AN05T5267, Notice#1

Dear Harris Lai,

I have reviewed the above referenced Class II Permissive Change application and have the following questions that need to be addressed before the review can be completed:

1. There was a letter of authorization from ACER to CCS TW in the original application. Please also submit the letter of Authorization for this application.

**Ans: Sorry, we forget upload it. Please find attachment.**

2. Please explain why SAR testing for this collocation situation was only performed near the WLAN Aux antenna.

**Ans: The WLAN Aux antenna is the worst case found in the original report, so we choose the Aux antenna to be evaluated for this new case.**

Best regards,  
Chris Harvey

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
