Request for Confidentiality

Date: November 19, 2015

Subject: Confidentiality Request for HS9-ERM5220R01

Pursuant to FCC 47 CF 0.457(d) and 0.459 the applicant requests that a part of the subject FCC application be held confidential.

Type of Confidentiality Requested	Exhibit
<input checked="" type="checkbox"/> Permanent	Block Diagrams
<input type="checkbox"/> Permanent* <sup>1</sup>	External Photos
<input checked="" type="checkbox"/> Permanent	Internal Photos
<input type="checkbox"/> Permanent	Operation Description/Theory of Operation
<input type="checkbox"/> Permanent	Parts List & Placement/BOM
<input checked="" type="checkbox"/> Permanent	Tune-Up Procedure
<input type="checkbox"/> Permanent*	Schematics
<input type="checkbox"/> Permanent*	Test Setup Photos
<input type="checkbox"/> Permanent*	User's Manual

\*Note: (Not applicable)

Honeywell International Inc has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

**Permanent Confidentiality:**

The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.

**Signed on behalf of Honeywell ACS:**

Peter Walther, Sr. Engineer

<sup>1</sup> - The asterisked items (\*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."
