

Honeywell

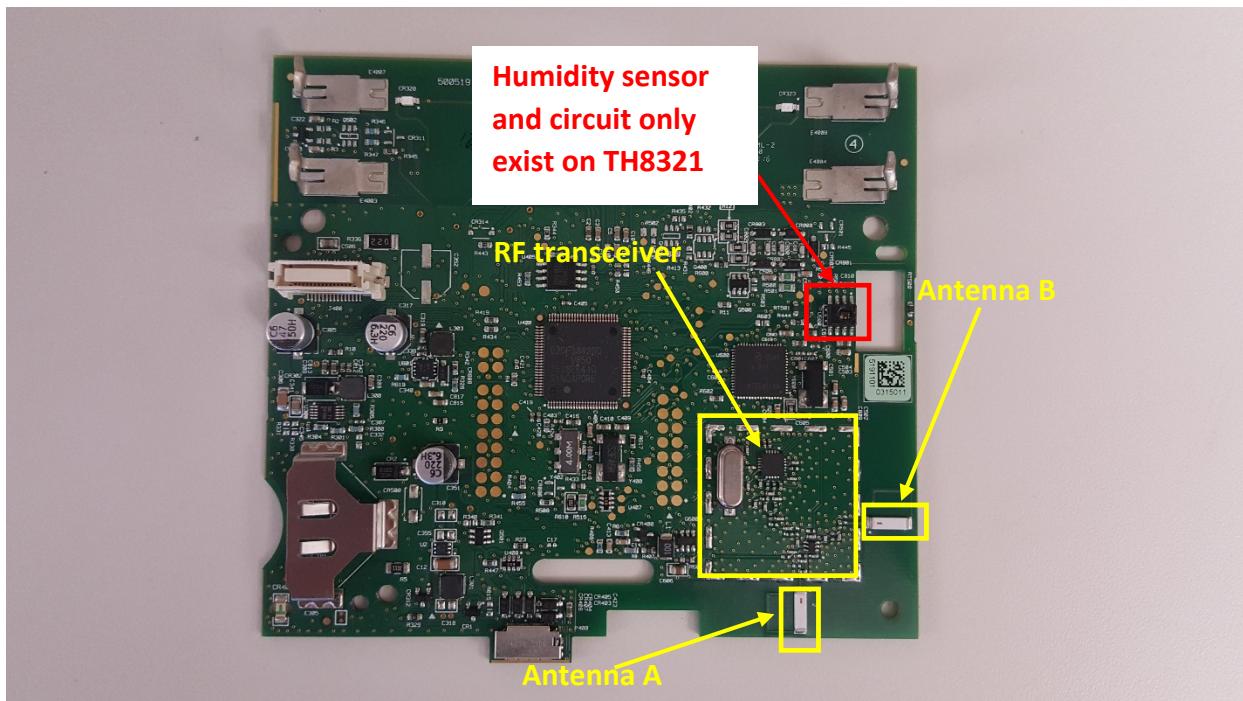

The three models include:

TH8321R1001 (allows for 3-heat, 2-cool hvac applications with humidity sensing)

TH8320R1003 (allows for 3-heat, 2-cool hvac applications without humidity sensing)

TH8110R1008 (allows for 1-heat, 1-cool hvac applications without humidity sensing)

The main thermostat differentiates by humidity sensing. The TH8321 is shown, while the TH8320 and TH8110 have the humidity sensor circuit removed.

TH8321R1001

TH8320R003

TH8110R1008
