Re: FCC ID: HSW-CCT24

To Whom It May Concern:

The following application is submitted on behalf of our client, RF Monolithics, for evaluation of their model CCT24 for single module approval certification under FCC Part 15.247.

The CCT24 is a 2.4 GHz frequency hopping transceiver designed for use in industrial and commercial monitoring and control markets. The CCT24 employs a dual carrier transmission within the frequency band 2409.55 - 2479.85 MHz.

The CCT24 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
