Re: FCC ID: HSW-WSN802G

To Whom It May Concern:

The following application is submitted on behalf of our client RFM / Cirronet, Inc., for evaluation of their models WSN802GC and WSN802GP for certification under FCC Part 15.247.

The WSN802GC and WSN802GP are stand-alone modules consisting of a single printed circuit board which meets the requirements for single modular approval under 15.212. The WSN802GC and WSN802GP are designed to be integrated into specific host devices. The differences between the modules are as follows:

WSN802GC - Reflow soldering mounting

WSN802GP - Socket mounting

The WSN802GC and WSN802GP were tested in full to the requirements of the aforementioned rules and were found to be in compliance.

Sincerely,
