

Manual Requirement of FCC
Model: DNMWR018RAM

Our product is one of vehicle parts incorporated into the vehicle as original equipment. Therefore, we will not supply the user manual and service manual of the product. However, we will ask the vehicle manufacturer to include following statements in the vehicle user's manual and service manual in accordance with FCC requirements.

1. Requirement for User manual of the vehicle

FCC Requirement

In accordance with 15.21 of FCC rule, following statement will be included in the user manual of the vehicle.

FCC WARNING

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

In accordance with requirement of FCC§15.19(a)(3), following statement will be included in the user manual of the vehicle.

NOTE

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

In accordance with requirement of FCC RF exposure, following statement will be included in the user manual of the vehicle.

Radiofrequency radiation exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator (antenna) and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

2. Service manual

In accordance with SAR requirement of FCC rule, following statement will be included in the service manual.

Radiofrequency radiation exposure Information:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be kept with minimum distance of 20 cm between the radiator (antenna) and your body at all times during adjustment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
