Reply

Hello September, Thu,

The review of this application is complete. Please respond to the following items:

- Q1: Please provide new external photos of the smaller enclosure.
- Q2: Please provide new internal photos since the internal arrangement has changed.
- Q3: Since this composite device was previously approved by FCC as a Master, please confirm that no changes have been made to antenna, firmware, or other portion of the product which could have impact on the NII or DFS functions of the product.
- Q4: Please respond as to whether a composite permissive change application is being submitted to FCC for the NII portion of this composite device. The application form indicates that an application has been approved by FCC, but the recent grant under this FCCID appears to be for a different purpose.

Best regards,

Tim Dwyer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Hi Tim,

Below are the answers to your questions on this application.

Q1: Please provide new external photos of the smaller enclosure.
<CCS ANSWER:> Please see attached photo exhibit.

Q2: Please provide new internal photos since the internal arrangement has changed.
<CCS ANSWER:> Please see attached photo exhibit.

Q3: Since this composite device was previously approved by FCC as a Master, please confirm that no changes have been made to antenna, firmware, or other portion of the product which could have impact on the NII or DFS functions of the product.
<CCS ANSWER:> The client confirms that no changes have been made to antenna, firmware, or other portion of the product which could have impact on the NII or DFS functions of the product.

Q4: Please respond as to whether a composite permissive change application is being submitted to FCC for the NII portion of this composite device. The application form indicates that an application has been approved by FCC, but the recent grant under this FCCID appears to be for a different purpose.
<CCS ANSWER:> Corresponding application has been submitted.

Best regards,
September
