## Class II Permissive Change Request Letter

To:  
Federal Communications Commission

**RE: FCC PCII Certification Request for Zebra N radio module (I28MD-EXLAN11N)**

We are submitting an application for a class II permissive change to the modular approval of the Zebra N radio (FCC ID: **I28MD-EXLAN11N**, Original Grant Date: (Dec 23, 2011). The original N radio module has both WiFi and BT in it, but we disabled BT from the original N radio module, the N radio module now only has WiFi. We also installed the WiFi only N radio module in the printer hosts ZT220 and ZT230.

The hardware remains the same, the BT is disabled thru software.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles A. Derrow".
