This documentation consists of 4 pages include this cover page.

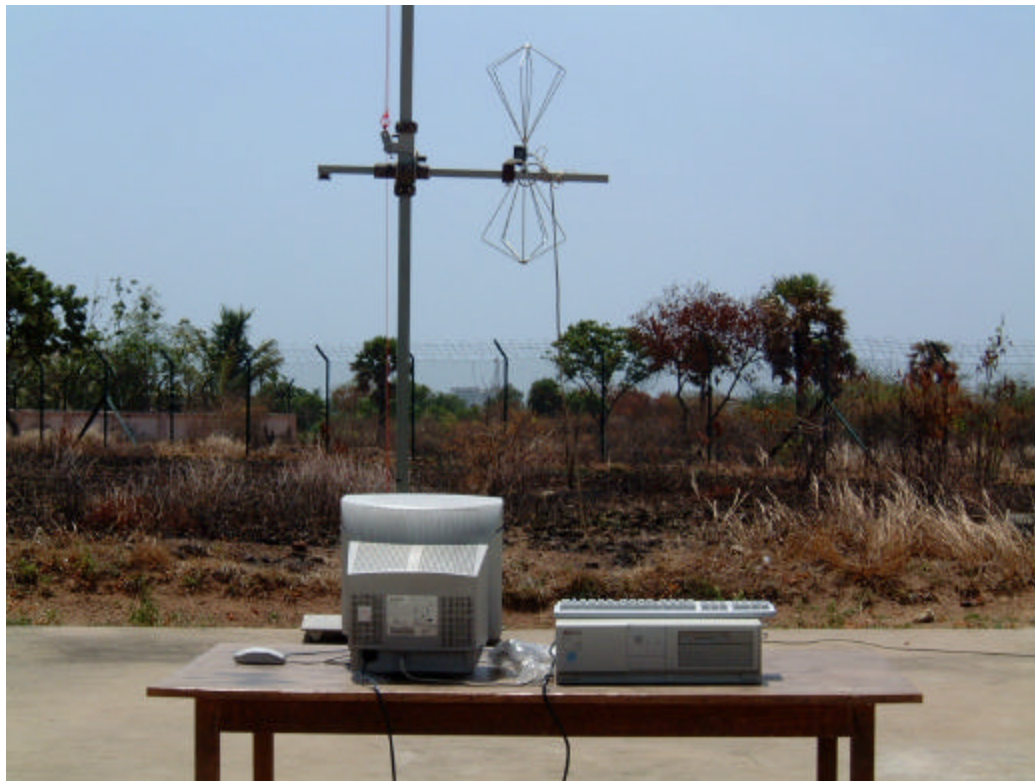

TÜV Rheinland

Approved

 A photograph of an indoor laboratory setup for conducted emission testing. On the left, a desktop computer with a CRT monitor displaying a green screen sits on a white table. To the right, a spectrum analyzer is placed on a wooden desk, connected to the computer system. The background features a grey wall with a small white notice and a wooden door.	Conducted Emission
 A photograph of an outdoor testing environment for radiated emission. A desktop computer system is positioned on a wooden table in the foreground. In the background, a tall vertical mast with a horizontal arm and a sensor is visible against a clear blue sky. The ground is dry and covered with sparse vegetation.	Radiated Emission (Horizontal Polarisation)

Radiated Emission (Vertical Polarisation)

Radiated Emission (Veritcal Polarisation)
