Subject: MICTRONICS INC. FCCID: I7CMODELTX-BAT  
  
Reference: EA 95769

Attached is a plot of the combined CW & modulated signals. I also spoke with the manufacturer and said that the frequency range that they use is 49.83 to 49.89MHz. Not 49.82 to 49.90MHz as we assumed and put on the 731 form.

So please change the frequency range on this application.

Thanks for your help.

BEST REGARDS,

Sid Sanders
