IE3VP66XX06-1	<p>1) The sample FCC label has the identifier indicated as "FCC: IE3VP66XX06". It must read "FCC ID: IE3VP66XX06". Please submit a new sample label, and also indicate the location of the label on the device. Response: The FCC ID Label has been revised to show the above. Also, the exhibit has been revised to show the location of the device. 2) The request for confidentiality letter is not sufficient, as it must reference section 0.459 of the rules, in addition to 0.457. Response: The Confidentiality letter has been revised to show the above. 3) According to the test report, the highest measured peak output power was 2.33 dBm (0.0017 watts), but the application form indicates an output power of 0.00429 watts. Please explain and correct this discrepancy. Response: The 731 form has been revised to show the correct power of 0.0017 watts.</p>
