Subject: Response to Inquiry to FCC

Inquiry:

Hello, we would like to know if it is permissible to remove HAC Rating from an FCC ID via C2PC and also a letter from the manufacturer stating that no models with the original HAC rating will be sold to the public (or some form of similar attestation). Thank you.

Response:

Yes, Changes in HAC rating require a permissive change. A phone that was originally granted as HAC compliant and will now only be marketed as non HAC compliant requires a permissive change.
