Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. Regarding your response to #5, The Users Manual (p23, 47-49, 70, 87) and Schematics/Block Diagram indicate that the device will be capable of being a computer peripheral. Please clarify.

The items indicated above must be submitted before processing can continue on the above

referenced application.

Response: It is confirmed that no computer peripheral function is available on this device. The device uses a USB connector for charging only. A PC software driver is available to allow the phone's USB connector to be detected and allow battery charging only from a computer.

In regards to the User's Manual, can you double check to see if you had referred to a different application in error?

Sincerely,  
Steve Liu
