RE: Supersede Test Report exhibit
FCC ID: IHDP56LR1

This request is for supersede of the Test Report exhibit from the filing for the above FCC ID. The exhibit requires supersede to provide updated results based on amended max power calibrated samples.

The device build level has not changed. The peak conducted output power levels in the updated part 22/24 report have been compared to the conducted power levels in the SAR report at each frequency and mode (GSM/GPRS/EGPRS) and found to be within 0 - 5.5% tolerance.

Sincerely,

Vina Kerai
Compliance Engineer
