Subject: Re: Follow-Up Questions Regarding FCC ID: IHDP56LV1

Hi Greg,

Per agreement directly with the FCC we are addressing the Wi-Fi Hotspot capability with a revised cover letter. (Attached)

In addition, per agreement with Greg Synder (& Steve Liu), we are submitting a revised HAC T-coil report to amend the filing. (attached) Due to audio characteristic optimization, the reported T-coil rating has changed from T4 to T3.

Regards,
Andy

Hello Lillian,

Thank you for your email.

W

e note that p. 47 of 67 of the user's manual references WiFi Hotspot capability. The FCC has stated that devices with this capability must be tested accordingly (e.g., potential simultaneous transmission, 5 mm spacing unless a greater separation distance can be justified thru a KDB inquiry, etc.- please see pages 6 and 7 of the attached Minutes from a recent TCB-FCC Conference Call). In addition, any test reductions must be pre-approved via KDB inquiry. If they have not been tested accordingly at the time of initial grant, then the wireless router capability is not authorized for use, and warning labels may be required to be placed on the device- again, a KDB inquiry is necessary. A C2PC must be filed to address RFx concerns before such use can be authorized. Please address.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
Senior Certification Engineer
