REQUEST TO UPERCEDE EXHIBITS

19 July 2011

Federal Communications Commission Laboratory
Authorization & Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

**Subject: Request to Supersede Exhibits and Confidentiality Status Regarding
Application for Certification of FCC ID: IHDP56MD1.**

Dear Sir or Madam:

Motorola Mobility, Inc. would like to present new exhibits for the above filing, which will supersede those originally submitted. The affected exhibits are shown below.

- RF Exposure Report (IHDP56MD1 Exhibit 11)

The reason for this amendment is that, for the cellular phone granted under FCC ID IHDP56MD1, Motorola has changed the radiated power reduction value for the CDMA1900 data mode transmissions (1X and EV-DO modes only) to improve the customer experience. The reduction value has been changed to increase the radiated power by ~2.5 dB (compared with the original cutback evaluated) when CDMA1900 data modes are used in the Wi-Fi Hotspot mode.

The cutback scheme described in the original filing is unchanged. Additionally, no changes were made to the radiated power levels for any other mode or band. No hardware changes were made. The only affected modes for this change for wireless hotspot mode using CDMA 1900 data. The change to this reduction amount has increased the measured SAR when the product is used in this mode.

FCC ID: IHDP56MD1

Pursuant to Sections 0.457 and 0.459 of the Commission's Rules, we hereby respectfully request confidential treatment of information accompanying this application as outlined below:

No Confidentiality Requested	
Exhibit Type	File Name
RF Exposure Test Report.	IHDP56MD1_Ex11 (RF Exposure Report).pdf
Supplemental Attestation	IHDP56MD1 Ex_02A (Attestation).pdf

Please contact me if you require any additional information.

Regards,

FCC Liaison
