RE: FCC PC2 Certification Application

FCC ID: IHDP6JU1
Model: SYN2847B

We would like to apply a FCC class II permissive change for **FCC ID: IHDP6JU1** (EUT). The EUT is MOTONAV™ TN30 with a bluetooth module inside, and has been granted on 07/31/2008. The reasons of change are 1) update a new version of the operating system, 2) change the model number from SYN2847A to SYN2847B. Due to they don't change any RF characteristics, we present the same test data of the original test report.

We uploaded the following document for the EUT onto your website, besides Block Diagram, Schematics, Internal photos, Setup photos, and Manual, for they are the same as the original ones.

1. Form 731
2. Application & Authorization letter
3. Test Report-- model change
4. Label & location -- model change and readjust
5. external photos-- model change on its label

Please review the information we submitted and issue us a grant for the subject model. If you have any comments, please do not hesitate to contact us.

Thank you for your attention to these matters.

Sincerely,

Roy Hsieh / Manager
International Standards Laboratory
