Columbia, Maryland 21046

Re: Application for Cellular/PCS Transceiver Certification
(Class II Permissive Change)

Gentlemen:

Application:

Motorola, Inc., Personal Communications Sector, 600 N. U.S. Highway 45, Libertyville, Illinois 60048-1286 herein submits:

- Application for Equipment Authorization (FCC Form 731-October 1992 with integrated Fee Processing Form, Fee Codes EAC),
- application fee in the amount of \$50, and
- SAR Exhibit.

These items are for Class II Permissive Change Certification of Cellular Transceiver, FCC ID: IHDT56AA1. Motorola is the manufacturer of this equipment.

Description of Change:

The equipment has been changed with the addition of a small GLSR (ground loop secondary radiator) "wire" mounted internally on the rear of the housing. This "wire" modifies the near field SAR. Far field radiated measurements, and conducted measurements have not changed. A class 2 permissive change SAR exhibit is submitted to report these changes.

NOTE:

The conducted power listed in the SAR test report will be higher than the shipped product and may vary slightly from the power in the original SAR report. In all cases the power of the shipped product is specifically set lower and is subject only to normal manufacturing variance. Motorola is not requesting a change to the power levels.

Contact Information:

Please contact me by telephone at (847) 523-6167, or by e-mail (A.Bachler@motorola.com), if there are questions or additional information needed concerning this filing.

Regards,

Andrew J. Bachler
