Use the stylus

Navigate apps, take notes, handwrite text, edit screenshots, perform calculations, and more.

- To remove the stylus, push the stylus inward to release it, then pull it out.
- To store the stylus, insert it into the slot, then push it until it locks in place.
- To set up your stylus, swipe up from the home screen and tap **Settings > Stylus**.

Put in the card(s) & power on

Your new phone might already have the SIM card inserted. If not, insert the SIM card as shown.

- 1 Insert the SIM tool into the hole next to the SIM & microSD card tray to pop out the tray.

Make sure you use the correct size SIM card and don't cut the SIM card.

- 2 Insert the SIM card with the gold contacts down, then gently push the tray into the slot.

Add a microSD card **micro** (optional, sold separately) for additional storage.

Charger your phone

Charge your phone using a compatible Motorola charger or a Qi-certified wireless charger (sold separately).

eSIM option: If your phone supports an eSIM (embedded SIM card) in addition to the physical SIM card, you can find **EID • eSIM** by swiping up and tapping **Settings > About phone > Device details**. Contact your service provider for details and eligibility if you want to activate and use it.

- 3 Press and hold the Power button  to turn on your phone, then follow the prompts to get started.

To turn off your phone, press the Power and Volume Up buttons  at the same time.

Screen protector. Screen protectors may reduce your phone's touchscreen sensitivity. Do not use screen protectors thicker than 0.5 mm.

Legal information. This guide provides important legal, safety, and regulatory information that you should read before using your product. For the complete legal information, from the home screen swipe up and tap **Settings** >  then type **Legal information**, or visit www.motorola.com/device-legal.

Dust and water resistance. Tested under controlled laboratory conditions, the phone is water, splash, and dust resistant to ratings of IP68 and IP69 (IEC 60529). The phone can be submerged up to 1.5 meters in still, fresh water for up to 30 minutes, and is protected against powerful, high-temperature water jets for up to 30 seconds. Exposure to conditions beyond these ratings is not covered by warranty. Resistance will decrease as a result of normal wear. Not designed to work while submerged underwater. Do not expose to liquids other than fresh water. Do not attempt to charge a wet phone. Designed to provide protection against the ingress of solid foreign objects of size bigger than 1 millimeter. Not waterproof or dustproof. For more information, swipe up and tap **Settings** > **Help**.

Durability. The U.S. Department of Defense's MIL-SPEC standards establish methodologies for testing products against environmental stresses under controlled laboratory conditions; Motorola tests devices against hazardous physical and environmental conditions under select categories and procedures of the MIL-STD-883C standard to determine durability. Such testing is not a guarantee of future performance under these test conditions.

Charging and battery safety. The battery in your phone can be removed by suitably competent personnel following Motorola-approved repair and service manuals. To prevent possible burning and injury, always follow the instructions provided. If your phone becomes unresponsive, press and hold the Power button until the screen goes dark and your phone restarts. For the fastest charging speeds, charge your phone using a Motorola 68W or higher USB-C PD (Power Delivery) charger and a Motorola PD cable. Both may be sold separately. Other compatible chargers and cables may be used to charge the device. However, use of such chargers/cables is not recommended and may result in slower charging speeds.

Chargers that do not comply with applicable national standards may be unsafe, with risk of death or injury, and may cause slow charging

or product damage. Don't charge your phone in temperatures below -20°C (-4°F) or above 45°C (113°F). To view applicable standards and to learn more, see the "Legal information" section of this guide, or visit www.motorola.com/device-legal.

Warning about high volume usage. To prevent possible hearing damage, do not listen at high volume levels for long periods. When your headset volume reaches the high volume threshold, a warning shows. Tap **OK** to dismiss it, or wait one to five seconds, then press the Volume Up button to dismiss the alert and enable the volume to continue to be adjusted.

Hearing Aid Compatibility (HAC). The lowest conversational gain for this phone is **X**dB with a hearing aid, and **Y**dB without a hearing aid. For more information, see the legal guide that came with your phone.

Disposal & recycling. Don't dispose of your battery or mobile device with your household waste. For help recycling products and packaging responsibly, visit www.motorola.com/recycling.

Class 1 Laser. This device is classified as a Class 1 Laser product, which is safe in normal use per IEC60825-1:2007 and IEC60825-1:2014. This device complies with 21 CFR 1040.10 and 1040.11, except for deviations pursuant to Laser Notice 50, dated June 24, 2007. Do not attempt to modify or disassemble.

Extreme heat or cold. Don't use your phone in temperatures below -20°C (-4°F) or above 45°C (113°F). Don't store/transport your phone in temperatures below -20°C (-4°F) or above 60°C (140°F).

Legal disclaimers. Features, services and applications are network dependent and may not be available in all areas; additional terms/charges may apply. Product specifications and other information contained in this guide are believed to be accurate at the time of printing or release. Motorola reserves the right to correct or change any information without notice.

Arbitration. Your purchase is governed by a binding arbitration clause. For more information and how to opt-out, see the legal guide that came with your phone.
