## Summary of FCC request for additional information

There was a request for additional information regarding Motorola's SAR Test Report for Motorola portable cellular phone (FCC ID IHDT56CF1). The requested information is addressed below in the same numbering sequence received.

Based on your response to correspondence 4794 the FCC requests that you address the following items.

Regarding your answer to question SAR 2 please provide an updated and appropriate user manual statement. Both of the submitted statements below could easily be misunderstood by a user to suggest that there are Motorola accessories tested for this device. This device was tested without any body-worn accessories; wording in the statement should clearly reflect this.

a Motorola-supplied or approved clip, holder, holster, case, or body harness for this product. Use of non-Motorola-approved accessories may exceed FCC/Health Canada RF exposure guidelines. If you do not use one of the Motorola-supplied or approved body-worn accessories,

If you do not use one of the Motorola-supplied or approved body-worn accessories, and are not ....

**Response:** Martin, Motorola is anxious to work with the FCC to resolve this issue. We therefore request a meeting to discuss the issue in person. Please contact either of the following to establish a meeting which fits your schedule.
