Summary of FCC request for additional information

There was a request for additional information regarding Motorola’s SAR Test Report for Motorola portable cellular phone (FCC ID IHDT56FE1). The requested information is addressed below in the same numbering sequence received.

1. Please confirm that the following is a typo: the body-worn SAR for the cellular band is listed for channel 190 in the Table (p. 10 of the SAR report), but on the SAR plot page it is listed as channel 189.

**Response:** There is a typo in the GSM Body-Worn table on p. 10 of the test report. The corrected table is attached below.
