| Date of Original Email: | 06/13/2006 |

Prepared by:

Andrew Bachler, Principal Staff Engineer
Motorola Mobile Device Business
Libertyville, Illinois

Questions and responses follow:

1. Please address SAR compliance of the device with Bluetooth enabled.

Response: To confirm and clarify; the device was tested with Bluetooth enabled while in a GSM call. This testing was conducted in the body worn configurations that resulted in the highest SAR value for a GSM-only call, for each transmission band. Please refer to section 6.2 of Exhibit 11 for the resulting test data.
