Supplement to SAR Test Report for Motorola portable cellular phone (FCC ID IHDT56FJ1)

Prepared by:

Albert Patapack

Motorola Personal Communications Sector Product Safety Laboratory

Libertyville, Illinois

Summary of FCC request for additional information

There was a request for additional information regarding Motorola’s SAR Test Report for Motorola portable cellular phone (FCC ID IHDT56FJ1). The requested information is addressed below in the same numbering sequence received.

2. The probe conversion factors listed in the tables on pages 5 and 9 of the SAR Report do not match the values listed in the probe cal report or the SAR plot pages. Please address.

**Response:** The probe tables on pages 5, 7 and 9 contain typographical errors. The corrected tables are attached below.

Page 5

Description	Serial Number	f (MHz)	Conversion Factor	Cal Cert pg #
E-Field Probe ET3DV6	SN1397	900	6.38	8 of 9
		1810	5.17	8 of 9

Page 7

Description	Serial Number	f (MHz)	Conversion Factor	Cal Cert pg #
E-Field Probe ET3DV6	SN1397	900	6.38	8 of 9
		1810	5.17	8 of 9

Page 9

Description	Serial Number	f (MHz)	Conversion Factor	Cal Cert pg #
E-Field Probe ET3DV6	SN1397	900	6.22	8 of 9
		1810	4.77	8 of 9
