

MOTOROLA

Date: August 31, 2005

Subject: Request for additional information regarding FCC ID: IHDT56FT1 (Portable PCS GSM transceiver)

Reference:

Application Received:	08/15/2005
Correspondence Reference Number:	150815B.IHD
Confirmation Number:	1508150403
Date of Original Email:	08/31/05

Prepared by:

Andrew Bachler, Principal Staff Engineer
Motorola Mobile Device Business
Libertyville, Illinois

Questions and responses follow:

1. The language required by Section 15.21 (for the Bluetooth transmitter) is not in the supplemental user's manual information package (Exhibit 8A) submitted earlier today. Please address.

RESPONSE: The following statement will be added to our "copyright" page (page 4 of the preliminary draft copy).

Caution: Changes or modifications made in the radio phone, not expressly approved by Motorola, will void the user's authority to operate the equipment.

2. We have received the update to the user's manual including the required HAC language, however, the supplemental manual info referenced in question 1 (above) includes, on p.6, the "old" generic warning regarding Hearing Aids. Please verify that this old language will be removed, in light of the "new" HAC language submitted.

RESPONSE: Yes, the final manual will contain the new HAC language (submitted separately from the preliminary draft copy user's manual).

3. Also recently submitted is the Attestation Statement regarding the state of production of the samples tested for HAC. However, this Statement references a Class II Permissive Change. We are preparing to issue the original grant with the HAC rating- please resubmit a similar Attestation Statement that omits the reference to a Class II Permissive Change.

RESPONSE: Please replace the earlier submitted attestation statement, which references "Class II Permissive Change", and delete the corresponding cover letter.
