Date: December 19, 2005

Subject: Request for additional information regarding FCC ID: IHDT56FV1 (Portable PCS GSM transceiver)

Reference:

Application Received:	9/28/2005
Correspondence Reference Number:	150928A.IHD
Confirmation Number:	1509280474
Date of Original Email:	12/19/05

Prepared by:

Andrew Bachler, Principal Staff Engineer
Motorola Mobile Device Business
Libertyville, Illinois

Questions and responses follow:

1. This application is missing the 20cm statement in the Users Manual.

RESPONSE: The following statement will be added to the user's manual.

User Operation

Do not operate your telephone when a person is within 8 inches (20 centimeters) of the antenna. A person or object within 8 inches (20 centimeters) of the antenna could impair call quality and may cause the phone to operate at a higher power level than necessary and expose that person to RF energy in excess of that established by the FCC RF Exposure Guidelines.

IMPORTANT

The telephone must be installed in a manner that provides a minimum separation distance of 20 cm or more between the antenna and persons to satisfy FCC RF exposure requirements for mobile transmitting devices.

2. FYI: There is a typo on page 6 of the EMC report stating that the device is portable

RESPONSE: Please reference corrected EMC report Exhibit 6A submitted on 12-20-05.

3. FYI: There is a typo on page 18 of the EMC report, stating that the output power is 30.03dBm for the 850MHz band.

RESPONSE: Please reference corrected EMC report Exhibit 6A submitted on 12-20-05.
