Dear Katie:

Transmitted herewith, on behalf of **MOTOROLA Inc.** is an amendment provided in response to the request for technical information dated April 4, 2006.

1. The originally submitted SAR report was an incorrect version for an earlier PCB. The Class II submission is for the correct PCB; which is the same version as the EMC report, photographs, and remaining exhibits. The earlier version of the EUT was never sold or marketed. We submitted a Class II Permissive Change, because the EUT was already granted and it was too late to amend the filing with the correct SAR report.

We trust this information is sufficient to resolve FCC questions in this application. If you have any further questions, please do not hesitate to contact us.
