Date: December 13, 2006

Subject: Request for additional information regarding FCC ID: IHDT56GJ2 (Portable PCS CDMA transceiver)

Reference:

Correspondence Reference Number: IHD0784
Confirmation Number: 12010785-86
Date of Original Email: December 11, 2006

Prepared by:

Andrew Bachler, Principal Staff Engineer
Motorola Mobile Device Business
Libertyville, Illinois

Questions and responses follow:

1. Please fully address the FCC 3G policy recently issued in June 2006. Service Options for this CDMA2000 device. Please provide details of device capability, RF modes/options used for EMC and SAR and also the method used for mode selection. (Exh 6 Page 6, Exh 11 Page 4).

Response: Exhibit 6 (page 6) and exhibit 11 (page 4) contain tables which address the recently issued FCC 3G policy. (Note: This information referenced as being per the "Preliminary Guidance for Reviewing Applications for Certifications of 3G Devices" released on May 9, 2006; is applicable to the FCC 3G policy released in June 2006.)

2. Cellular CDMA Body SAR evaluation contains only one channel evaluated, while the SAR value is greater than 3dB below the SAR limit for ANSI C95.1. Please submit SAR data for 1013 and 384 channels for Body SAR.

Response: Please refer to the supplemental SAR report.

3. The statements required by Sections 15.19, 15.21 and 15.105 cannot be located in the user's manual. Please confirm that they will be included there prior to shipment of the EUT.

Response: Please refer to page 109 in the replacement user's manual.

4. Please submit a copy of your most recent A2LA Accreditation No. 1651-01 for Scope EMC/SAR, if available.

Response: Please refer to the attached accreditation certificate.

5. Please clarify which Table on Page 14, Exhibit 6B-2 is for 1/8 Rate and which is for Full Rate.

Response: The first table is full rate and the second table is 1/8 rate. Please refer to the replacement HAC test report which corrects the typo.
